## WORK EXPERIENCE

### Frontend Developer

#### APG eCommerce Solutions

06/2022 - Present

Amman

##### Achievements/Tasks

- Developed APG E-Commerce's internal logistics system leveraging Angular, React and Typescript, incorporating micro frontend architecture for scalability and modularity.
- Applied agile development methodologies and actively engaged in cross-functional collaboration, playing a pivotal role in innovating and implementing new features for the company's platform.
- Collaborated within the team to craft a user-centric and efficient system design at APG E-Commerce, ensuring an intuitive interface for the internal logistics system.

### Frontend Developer

#### Carzpay

08/2024 - 02/2025

Remote - Part Time

##### Responsibilities

- Developed a React.js single-page application (SPA) dashboard based on Figma designs.
- Implemented authentication and authorization.
- Leveraged Tailwind CSS utility classes to build a clean, scalable, and consistent UI.
- Ensured mobile-first and responsive design, optimizing for different screen sizes.
- Built and optimized Users page, Tickets page, and other essential dashboard functionalities, Integrated ApexCharts to visualize key statistics.
- Integrated the frontend with the backend, using Axios for efficient data fetching and API communication.

## EDUCATION

### Communication and Software Engineering

#### Al-Balqa' Applied University

09/2018 - 06/2022

Very Good
