- Dashboard Development (Power BI, Tableau)
- SQL Queries & Database Handling

Soft Skills:

- Communication & Presentation
 - Leadership & Team Collaboration
 - Problem Solving
 - Ability to work independently and as part of a team.
-

WORK EXPERIENCE

Senior Executive EVBV/PA – Ascent Business Solutions Pvt. Ltd

- Performed Eligibility & Benefits Verification (EVBV) by confirming patient insurance coverage, benefits, and policy details through payer portals and insurance representatives.
- Handled Prior Authorization (PA) requests by coordinating with payers to obtain approvals for procedures and ensuring documentation compliance before claim submission.
- Managed claim aging and AR trackers for payer portfolios, improving follow-up efficiency by approximately 10–15% through prioritized worklists and structured tracking.
- Reduced claim processing errors by approximately 20% by following SOP-based validation and data quality checks before escalation.
- Supported issue documentation and resolution workflows, contributing to faster turnaround on denied and held claims against defined SLAs.

Senior Billing Executive – Sunknowledge Services Pvt. Ltd.

- Processed billing and payment transactions with sustained >99% data accuracy, directly supporting timely revenue realization and minimizing revenue leakage.
- Improved billing turnaround time by approximately 12–18% by reorganizing daily work queues and prioritizing high-value and time-sensitive claims.
- Reduced duplicate corrections and rework by approximately 20–25% through strict SOP adherence and periodic quality audits, improving first-pass yield.
- Supported daily and weekly operational MIS reporting, contributing to improved visibility of backlog and enabling a 10–12% reduction in overdue claims over review cycles.
- Assisted in onboarding and shadow training of new team members, reducing average ramp-up time by approximately 20–25% and stabilizing delivery capacity during volume spikes.

INTERNSHIP

Market Research Analyst (Intern) – SkyQuest Technology Group

- Conducted secondary research and assisted in market sizing, segmentation, and trend analysis.
- Interpreted structured datasets and converted insights into standardized research reports.
- Maintained accuracy, consistency, and reporting discipline.

CERTIFICATIONS

- **Machine Learning with Python – IIT Kanpur**
(Foundational ML concepts using Python)
