## Internship

---

**Complete machine learning and data science**

**June 2023**

*Geeks for geeks*

- Completed an in-depth data science and machine learning course covering fundamental concepts such as web scraping, data analysis, and advanced topics including Data manipulation.
- Practiced problem-solving through coding challenges and projects.

## Projects

---

**Black Friday Sale / Python3**

**April 2023**

- This project is about to develop an insightful data visualization project to analyze and represent Black Friday Sale data from November 2021.
- This project aimed to provide valuable business insights and trends through visually compelling charts and graphs.
- The data is more important for the market's next year's sales. The vendors can estimate the crowd and the products that they brought more based on different ages and categories.
- This project is developed by using the Pandas & Seaborn library

**Cloud Restaurant / CPP, HTML, JAVASCRIPT**

**March 2022**

- Developed and implemented a comprehensive cloud-based restaurant management system aimed at optimizing operational efficiency and enhancing customer experience.
- Leveraging my proficiency in frontend technologies, I developed an intuitive user interface that seamlessly guides users through the ordering process.
- The system seamlessly integrates various aspects of restaurant operations, including order processing, inventory management, and customer relationship management, all hosted on a secure and scalable cloud platform.

## Certifications

---

**Ethical Hacking Essentials**

**December 2024**

Coursera — [Certificate link](#)

**Offensive Penetration Testing**

**December 2024**

Coursera — [Certificate link](#)

**CompTIA Linux+ XK0-005**

**May 2024**

Coursera — [Certificate link](#)

**Cyber Incident Response Specialization**

**May 2024**

Coursera — [Certificate link](#)

**IBM Cloud Essentials**

**July 2023**

EDX — [Certificate link](#)

**Bits and Bytes of Computer Networking**

**August 2022**

Coursera — [Certificate link](#)

## Technical Skills

---

**Programming Languages:** C, C++, Python.

**Web Technologies:** JavaScript.

**Data Management:** SQL, MySQL.

## Education

---

### **Lovely Professional University**

*Computer Science and Engineering — CGPA:6.84*

**2021 – 2025**

*Jalandhar, Punjab*

### **Sasi Junior College**

*12th with Science — Percentage: 65%*

**2019 – 2021**

*Mandapeta, Andhra Pradesh*

### **Sri Chaitanya Techno School**

*10th with Science — CGPA: 9.8*

**2018 – 2019**

*Mandapeta, Andhra Pradesh*
