Understanding of the Trade Life Cycle, Regulatory Framework & Compliance, Knowledge of Financial Products etc.

2021 – 2024 **Dyal Singh College, University of Delhi** **Delhi, India**

- **Bachelor of Commerce (A-Grade)**

## PROJECTS

### 1. Title: AML Detection with Excel Tools

#### Action:

- Created a transaction dataset including customer details, amounts, countries and transaction types.
- Set predefined rules to flag high-value transactions and transactions from high-risk countries.
- Used Excel conditional formatting to visually highlight suspicious transactions.
- Applied formulas to detect customers making multiple transactions in a single day.
- Summarized flagged transactions using pivot tables and basic charts for reporting.

#### Outcome:

The project successfully demonstrated how Excel can be used for basic Anti-Money Laundering (AML) detection. Using simple rules and formulas, suspicious transactions were identified and highlighted efficiently. The project outcome provided a clear understanding of early-stage AML detection processes, helping to build foundational skills necessary for regulatory compliance and risk management in financial institutions.

## CERTIFICATES

- **Internshala:** Financial Modeling and Valuation
- **Skill Course:** Excel Mastery
- **Skill Course:** Power BI Micro
