---

## SUMMARY

Tech enthusiastic with skills in Python, SQL, and Java, eager to contribute to collaborative projects. Passionate about coding, problem-solving, and learning in a team-driven environment.

---

## SKILLS SUMMARY

- **Languages:** Python, SQL, JAVA
  - **Technical Skills:** Flask, Numpy, Pandas, GenAI,
  - **Tools:** MS Excel, MS Office, MySQL, Data compute tool, Power BI
  - **Soft Skills:** Communication Skills, Problem Solving
- 

## WORK EXPERIENCE

### Associate Analyst, GlobalLogic Technologies Pvt.Ltd

Oct 2024 - Sep 2025

- Analyzed and reviewed large datasets based on predefined principles to ensure consistency, accuracy, and relevance before integrating them into the system.
- Identified errors and inconsistencies, fine-tuning data before feeding it into the system.
- Conducted research to validate and enhance data integrity and ensured compliance with company guidelines while optimizing data processing.

### Python Intern, Webuters Technologies Pvt.Ltd

Mar 2024 - April 2024

- Developed a Flask-based Task management web Application, implementing CRUD operations to manage tasks efficiently.
  - Leveraged LangChain framework to analyze large datasets, extracting valuable insights and predicting through advance AI Algorithms.
  - Leveraging Python scripting and AI capabilities to automate conversational interactions.
- 

## EDUCATION

### Bachelor Of Computer Application

Sep 2021 - July 2024

Invertis University, Bareilly

- CGPA : 8.0
- 

## PROJECT EXPERIENCE

### Face Recognition Attendance System

- Built an attendance system using OpenCV for real-time face detection and Scikit-Learn for facial recognition.
- Implemented SQLAlchemy for efficient database management, storing and retrieving attendance records securely.
- Integrated Python Libraries for optimized data handling, ensuring a smooth and responsive user experience.

### Vrinda Store Data Analysis

- Data cleaning, processing, analysis and dashboard creation in Excel.
- Developed a comprehensive Annual Sales Report for Vrinda Store of 2022 to analyze customer trends and unlock new growth opportunities, driving strategic sales expansion for 2023.
