## SUMMARY

- MBA in Finance & International Business with a Business Analytics certification from Wharton Online; skilled in financial analysis, global strategies, and data-driven decision-making.
- Organized industry-focused seminars and workshops, strengthened academia-industry linkages, and mentored peers in leadership and project management.

## OBJECTIVE

- Seeking a position in a progressive organization that offers a dynamic learning environment and opportunities to apply innovative strategies for organizational growth. Bringing expertise in finance, international business, and business analytics, with strong skills in data-driven decision-making, strategic planning, problem-solving, and stakeholder management. Eager to contribute to organizational success while enhancing professional growth through continuous learning and collaboration.

## WORK EXPERIENCE

### Finance Inter / Uno Mindarika private limited

June 24 - Aug 24

- Analyzed and optimized working capital components—including inventory, receivables, and payables—to improve cash flow efficiency and ensure effective utilization of resources.
- Collaborated with cross-functional teams to streamline processes, enhance internal controls, and align working capital practices with long-term strategic objectives.
- Utilized advanced Excel functions—including pivot tables, VLOOKUP, and financial modeling—to analyze large datasets, automate reports, and improve accuracy in working capital analysis.

### Finance and Analytics / Credence Whole Foods (P) Ltd, Gurugram

June 16 -30 July 2022

- Assisted in financial analysis and day-to-day operations, including reviewing transactions, monitoring expenses, and supporting monthly reporting activities.
- Contributed to budgeting and forecasting exercises, ensuring accuracy in financial data and providing insights to improve cost efficiency and resource allocation.

### KPMG Internship Training Program / Forage

Aug 2024

- Gained proficiency in data analysis and communication, including data cleansing, interpretation, creating Excel pivot tables and charts, and crafting impactful presentations with executive summaries.
- Strengthened research and creative problem-solving abilities by assessing web source credibility, exploring best practices for patient experience, and developing innovative initiatives for client projects.

### PwC Audit Simulation – Forage

Sept2024

- Completed a virtual experience program simulating real-world audit tasks, including financial statement analysis, testing internal controls, and ensuring compliance with professional standards. Developed practical skills in risk assessment, audit documentation, and problem-solving within a corporate environment.

### Accenture Strategy Consulting Job Simulation – Forage

Sept 2024

- Completed a virtual experience program simulating real-world consulting tasks, including market analysis, strategic problem-solving, and developing recommendations for business growth. Gained exposure to client communication, project planning, and data-driven decision-making in a consulting environment.
