SUMMARY

Detail-oriented Master of Computer Applications (MCA) student with hands-on experience as an Associate Analyst for the Google client project at GlobalLogic. Proven ability to drive data quality and model improvement through reinforcement learning principles and direct client feedback. Proficient in SQL, Java, and Python, with practical knowledge of frontend development using React, TailwindCSS, and Bootstrap. Recognized for exceptional performance, accuracy, and streamlining reporting processes, complemented by strong communication and teamwork skills.

EXPERIENCE

Associate Analyst | GlobalLogic, Gurgaon, Haryana (June 2025 – Present)

- **Google Client Engagement:** Directly communicated with the Google client to understand their model and requirements, ensuring data analysis delivered timely insights.
- **Reinforcement Learning & Feedback:** Utilized reinforcement learning principles by providing crucial feedback on generated data to the client, leading to a more trained and improved model.
- **Data Consistency & Quality:** Collaborated with Quality Assurance (QA) and Engineering teams to clean data and guarantee consistency and reliability across multiple platforms.
- **Performance Recognition:** Received consistent monthly recognition and incentives for outstanding performance, efficiency, and exceptional data accuracy in reporting.
- **Process Improvement:** Streamlined reporting processes, ensuring efficiency and reliability in data delivery for the project.

EDUCATION

MCA (2023-25)

Galgotias University, Greater Noida, Uttar Pradesh
07/2023 - Present

CGPA – 7.8

BCA (2020-23)

Galgotias University, Greater Noida, Uttar Pradesh
07/2020 - 06/2023

CGPA - 8.8

Senior Secondary (CBSE)

Bal Vidya Mandir Senior Secondary School, Charbagh,
Lucknow, India
2018 – 2019

76.8%

Secondary (High School) (CBSE)

Navayuga Radiance Senior Secondary School, Lucknow, Uttar
Pradesh
2016-17

CGPA – 8.4

PROFESSIONAL SKILLS

- SQL
- Teamwork and Communication Skills
- Project Understanding & Adaptability
- Java
- TailWindCSS, Bootstrap (v5)

PROJECTS

- **To-Do App**
A React to-do list app uses React-Bootstrap for UI, React-Toastify for notifications, and React-Icons for visuals. With useState, it efficiently saves and displays current task data, enabling users to create, mark/unmark, and delete tasks seamlessly.
- **Weather App**
Developed a responsive React weather dashboard that fetches and displays real-time API data. Showcased dynamic data rendering and visual structuring—helpful in interface planning and research.
- **Random Password Generator App**
Created a customizable password generator with logic handling based on user input—demonstrates ability to implement user requirements into functional UI components.
- **Tic-Tac-Toe Game:**
Tic-Tac-Toe game using HTML, CSS, and JavaScript with modes for playing against the bot or in two-player pass-and-play. The game tracks and calculates scores, offering options to start a new game or reset scores for replay.
- **Stone-Paper-Scissors Game:**
Developed a Stone-Paper-Scissors game using HTML, CSS, and JavaScript, featuring a smart UI for playing against a bot, score calculation, and winner display.
