## Summary

Aspiring AML KYC Analyst with a technical background in frontend development. Experienced in data handling, validation, and structured processes through a MERN stack internship. Strong analytical skills, attention to detail, and a keen interest in financial compliance and risk assessment. Eager to apply my technical expertise to AML/KYC operations.

## Experience

### Cetpa Infotech Pvt Ltd

Mern Stack Developer Intern

Noida, Uttar Pradesh

Oct 2024 - Dec 2024

#### MERN Stack Developer – Intern

Developed and optimized full-stack web applications using the MERN stack, improving performance by 30%. Designed and tested RESTful APIs handling 1,000+ daily requests. Implemented JWT authentication with 99% login accuracy. Built responsive UI components with React.js and Tailwind CSS, achieving 95% cross-device compatibility. Managed state with Redux/Context API, reducing re-renders by 30%. Collaborated in Agile teams, contributing to a 15% faster release cycle. Deployed apps on Vercel, Netlify, and Render, ensuring 99.9% uptime and handling 500+ simultaneous users.

## Projects

### Blog App

12/2024

**Tech Stack:** HTML, Bootstrap 5, JavaScript, React.js, Node.js, MongoDB

- Developed a responsive, user-friendly blog application using React.
- Enforced dynamic signup and contact forms with real-time validation.
- Created a fully responsive layout using Bootstrap to ensure mobile compatibility.
- Focused on delivering an engaging UI/UX experience with efficient state management.
- Incorporated routing for smooth and seamless navigation between pages.
- Deployed the application on a live server for public access.

### Car Management Application

10/2024

**Tech Stack:** HTML, CSS, Bootstrap 5, JavaScript, AJAX, React.js, Node.js

- Make a full-stack web application for managing car listings, including create, view, update, and delete functionality.
- Executed user authentication for secure access and management of car listings.
- Enabled car detail management, supporting up to 10 images, descriptions, and tags for each listing.
- Integrated global search functionality for easy navigation and filtering of listings.
- Created a clean, responsive UI for a seamless user experience across devices.
- Generated and documented APIs to support CRUD operations for car listings.
- Deployed the application on a cloud platform to ensure scalability
