SKILLS

- **Programming:** Python
- **Tools & Platforms:** MySQL, Snowflake, Jupyter Notebook
- **Data Visualization & Analysis:** EDA, Tableau, MS Excel, Google Sheets
- **Soft Skills:** Analytical thinking, Problem-solving, Attention to detail, Effective communication, Time management

PROJECTS

- **SaaS Sales Performance Analysis – MySQL & Tableau** Oct 2025
 - Analyzed SaaS product sales data using MySQL to uncover revenue trends, product profitability, and country-wise performance.
 - Built an interactive Tableau dashboard to visualize monthly growth, segment performance, and profit margins, enabling data-driven decision-making.
- **IPL Data Exploration – Python (Pandas, Matplotlib, Seaborn)** Nov 2023
 - Performed exploratory data analysis (EDA) on IPL datasets (2008–2020) to examine team performance, match outcomes, and player statistics.
 - Created insightful visualizations to reveal trends such as win rates, venue analysis, and standout players using Matplotlib and Seaborn.
- **Movie Recommendation System – Python (Pandas, CountVectorizer, Tkinter)** May 2023
 - Built a content-based recommendation system using cosine similarity and text vectorization techniques.
 - Cleaned and transformed movie metadata using Pandas and CountVectorizer and developed a user-friendly GUI with Tkinter for real-time recommendations.
- **Photography Portfolio Website – HTML & CSS** Apr 2022
 - Developed a multi-page, responsive photography website featuring sections for Home, About Us, Services, and Gallery.
 - Enhanced user experience with clean layout and implemented a contact form to collect user inquiries.

INTERNSHIP

- **Operations Intern** Apr'25 – Sep'25
Cleartax | Bengaluru
 - Acted as the primary customer liaison during peak ITR filing season, providing tailored tax plan guidance and coordinating with Chartered Accountants to ensure smooth service delivery.
 - Managed end-to-end client interactions via calls, emails, and chat, leveraging CRM tools to track issues and collaborate with cross-functional teams for timely resolution.
 - Monitored filing workflows and performance metrics to identify bottlenecks and contribute to process enhancements, improving operational efficiency and customer satisfaction.
- **Intern** May 2023 – Jul 2023
Cobra Softwares | Coimbatore
 - Collected and compiled data on top schools using manual research and web scraping tools.
 - Created website banners (Canva) and managed blog content (WordPress) to boost digital engagement.
 - Provided technical support and supported live streaming and virtual events using OBS Studio.
 - Trained the company's AI chatbot "Thambi" with curated data to enhance response accuracy.

EDUCATION
