S U M M A R Y

I have Worked as a Data Annotator with almost 2 years of experience in accurately labeling and annotating large data sets for Artificial Intelligence and Machine Learning purposes. Proficient in handling image, video, text, and audio data using a variety of annotation tools and platforms. I have worked in tools like Labelbox, Amazon SageMaker Ground Truth and Mturk with a good understanding of data quality standards and a keen eye for details.

I have also worked as in Back Office Fraud where i learned to detect, prevent, and investigate fraudulent activities by analyzing data and financial transactions for suspicious patterns.
