OBJECTIVE

seeking challenging career in sector to get a position of responsibility,using my skills and efficiency to communicate my ideas and views and commit myself for achieving organizational objectives with the team effort and my positive attitude and performance.

SUMMARY

- o   knowledge of c, c++, and python programming
- o   Familiar with Java Programming
- o   Knowledge of Writing & Executing SQL Statements.
- o   Good interpersonal skills, committed, result and processes - oriented, hard-working with a quest and zeal to learn new technologies.

ACADEMIC DETAILS

B.Tech (Computer science and communication)
  Institution   : Kalinga institute of industrial technology
  Year of Passing   : 2022
  Mark   : 8.0

High school(10+2)
  Institution   : Radiant International School
  Year of Passing   : 2017
  Mark   : 74%

Intermediate(Class 10)
  Institution   : Radiant International School
  Year of Passing   : 2015
  Mark   : 8.8

ACHIEVEMENTS

- Participated in debates and extempore conducted in school
- Got **certificate of Merit** for Inter house football conducted in school
- Got **certificate of Appreciation** for outstanding performance and dedication in project exhibition conducted   by college

PROJECT DETAILS

Title   :   Smart Surveillance System using OpenFace Face Recognition

Description : Security surveillance has always been a prime necessity, especially in criminal prone zones. However, the recent changing trend in the surveillance system has proved that a security camera with the added advantage of recognizing the person on the frame is more preferable to the traditional security cameras. These make the process of tracking culprits easier for the authorities. Therefore we have come up with a surveillance software powered by deep learning which uses the combination of a pre-trained Neural Network Model and Support Vector Classifier to detect the face of the person in frame and classify them according to the face data currently stored in the system

Team Size : 4

FIELD OF INTERESTS

- Designing
- Communication Skills
- Code

SKILLS

- Languages: Java,java script,python,html,c++,c

HOBBIES

- Sports
- Music

EXPERIENCE-:11/2024-CURRENT GLOBALLOGIC

Associate analyst

- Working on Google project and validating large-scale travel related data.
- Ensuring data accuracy by identifying and resolving discrepancies in Google search result.
- Conducting Quality audits and optimize the data integrity for a seamless user experience.
- Utilize the analytical skills to access and improve data classification models.
  Collaborating with cross-functional teams to enhance automation in data validation.
