PROFILE SUMMARY

A Commerce graduate and Certified Data Analyst with 1 year of hands-on experience in data analysis and business intelligence. Proficient in leveraging tools like SQL, Python, Power BI, and Alteryx to clean, transform, and analyze data. Interested in collaborating on meaningful analytical work in fast-paced environments.

CORE COMPETENCIES

- Data Cleaning & Transformation
- SQL & Database Management
- Data Visualization
- EDA (Exploratory Data Analysis)
- Statistical Analysis
- Machine Learning
- Business Intelligence & Reporting
- Python Programming
- KPI Design & Tracking
- Data Storytelling
- Stakeholder Communication
- Communication Skills

WORK EXPERIENCE

Data Analyst Intern

Aug 2024 – Nov 2024

National Finance Olympiad | Bangalore, India

- Collected, cleaned, and analyzed student datasets using **Excel and Alteryx**, improving data accuracy by **30%**.
- Created and managed **exam links and portal access**, reducing manual workload by **40%** and ensuring **100% data integrity**.
- Generated reports that boosted **student participation** by **25%** and supported financial literacy initiatives.

Business Development Associate

March 2024 – June 2024

Urban Company | Bangalore, India

- Onboarded and trained **50+ service partners**, expanding the supply base.
- Managed daily operations for 250+ partners in Bangalore and oversaw 3 other cities.
- Collaborated with product, quality, and customer care teams to enhance service delivery.

Data Analyst Intern

Aug 2023 – Dec 2023

Rubix - AI Solutions Company | Bangalore, India

- Performed SQL-based extraction, transformation, and analysis, enhancing decision-making by **25%**.
- Built dashboards that drove a **15% increase in sales**.
- Optimized SQL queries, reducing data retrieval time by **30%**.

PROJECTS

Blinkit Sales Analysis Dashboard [🔗](#)

- Built **KPI-driven Power BI dashboards** with advanced visualizations, boosting **sales by 15%** and improving **decision-making efficiency by 25%**.
- Optimized **SQL-based data extraction and transformation**, reducing **query time by 30%** and enhancing **reporting accuracy**.
- **Tools Used:** Python, SQL, Power BI, Tableau

Pizza Sales Analysis Using SQL [🔗](#)

- Processed and analyzed **5,000+ pizza sales records** using advanced SQL (joins, aggregations, CTEs) to uncover **sales trends, customer order patterns, and pizza size preferences**.
- Generated **query-driven reports and dashboards** highlighting top-selling pizzas, peak order hours, and revenue drivers, enabling a **20% improvement in sales strategy** decisions.
- **Tools Used:** Python, SQL

TECHNICAL SKILLS

Languages: Python, SQL

Visualization: Tableau, Power BI, Excel (Advance), Alteryx

Libraries/Tools: Pandas, NumPy, Seaborn, Matplotlib

Machine Learning: Logistic Regression, KNN, Linear Regression

Accounting & ERP Tools: Tally, Zoho

EDUCATION

Rungta Institute of Science and Management

May 2020 – June 2023

Bachelor's of Commerce

Advanced Certification in Data Analytics

Aug 2023 – Dec 2023

Tally Professional Certification

May 2022 – Feb 2023
