PROFESSIONAL SUMMARY

Motivated BCA graduate seeking an entry-level role in a dynamic organization where I can apply my technical and analytical skills, continue learning, and contribute to organizational growth while building a strong professional career.

EDUCATION

BCA	PSIT, Kanpur	2022-2025	80 %
Intermediate	P.C.E.C , Kanpur	2022	80%
High School	P.C.E.C, Kanpur	2020	88%

PROJECT EXPERIENCE

- ❖ **Drashya – Data Visualization Android Application**
 - Developed a localized Android application using **Java** and **Android Studio**.
 - Implemented interactive charts using **MPAndroidChart** for better data insights.
 - Integrated **Room Database** to enable offline data storage and efficient data handling.
 - Focused on clean UI design and smooth user experience without authentication or hosting.
- ❖ **Chat Bloom – WhatsApp Messenger Study**
 - Analyzed a cross-platform messaging application supporting real-time communication.
 - Studied features such as media sharing, voice messaging, and end-to-end encryption.
 - Documented user identification via phone numbers and automatic contact synchronization.

TECHNICAL SKILLS

- ❖ **C:** Can write basic programs, use loops and functions, and work with arrays, pointers, and simple file handling. Able to build small programs using logic and problem-solving skills.
- ❖ **C++:** Understands Object-Oriented Programming concepts such as classes, objects, inheritance, and basic use of STL. Can create simple and structured applications.
- ❖ **Python:** Can write scripts for automation and basic data handling. Comfortable with functions, lists, dictionaries, and working with files.
- ❖ **SQL:** Can write queries to insert, update, delete, and fetch data. Understands tables, joins, and basic database design. **Web Development (HTML, CSS):** Can create simple and responsive web pages, design layouts, style forms, and ensure pages work well on different screen sizes.
- ❖ **Web Development (HTML, CSS):** Can create simple and responsive web pages, design layouts, style forms, and ensure pages work well on different screen sizes.
