PROJECTS

Nirvana - Photography & Branding Website

Tech Stack: ReactJs, Tailwind CSS, JavaScript (ES6+)

Live: <https://nirvana-x.vercel.app> GitHub: https://github.com/aman9454/NIRVANA_X

- Designed and developed a visually appealing, responsive website using ReactJs, Tailwind CSS, and JavaScript (ES6+) to highlight Nirvana's photography and branding services.
- Focused on a mobile-first design approach with smooth navigation, modern UI elements, and a clean layout for an engaging user experience.
- Implemented component-based architecture, optimised image loading, and ensured fast performance across devices with cross-browser compatibility.

SinghAndJohnson - Marketing Agency Website

Tech Stack: ReactJs, Tailwind CSS, JavaScript

Live: <https://singh-and-johnson.vercel.app> GitHub: <https://github.com/aman9454/SinghAndJohnson>

- Built a responsive multi-page company website using ReactJs, Tailwind CSS, and JavaScript (ES6+), focusing on modern UI/UX and performance optimisation.
- Integrated React Router and Framer Motion, collaborated on client revisions, and deployed the project using Vercel with cross-browser support.
