

**Shikha Rautela**  
**AML Right Source (MBA, CFE, CCI)**

**--Professional Experience--**

**AML Right Source - July 2020 to present**

**Manager- Client Delivery (Managed Services)**

**Location(s) worked – USA & India**

**a) Gurgaon, India**

**Team management, Client management, Invoicing, Performance reporting, flash projections for one of the largest and oldest US based Financial Services Company.**

- Leading a team of 52 individuals across two AML processes: **Adverse Media Screening and Institutional KYC**.
- Prior to this Client, I was leading a team of 40 individuals for US based Fintech Client across four AML processes: **Transaction monitoring by bank referral, dispute/fraud resolution, investigations of subpoenas by the US government and Synthetic ID/ ID theft**.
- Identify top talent among the team and coach and develop leaders into Senior Analyst II roles.
- Evaluate team members for purposes of hire, termination, advancement, promotion or other job change.
- Manage the production and quality delivery of one or more client/ projects simultaneously.
- Interact regularly with key client contacts to strengthen the partnership, report results, and identify new opportunities for services provided.
- Lead or help oversee the identification, monitoring, and reporting of patterns, trends, and AML typologies on engagements.
- Provide production and quality Key Performance Indicator (KPI)/Key Risk Indicator (KRI) reporting to Senior Leadership and clients.
- Work directly with internal AMLRS partners to develop subject matter expertise and expand advisory services and consulting opportunities with clients.
- Handle client management, resource and production projections, performance reporting, and maintain daily dashboards showcasing production, quality, AHT, shrinkage, and capacity utilization.
- Prepare flash projections, mid-month projections, and client invoicing, while managing team performance.

During initial set-up of AMLRS in India, I also supported other functions- Talent Acquisition, resource management, operations and PMO team.

**b) Ohio, USA - July 2020 to October 2021**

**Project: SAR Investigations, transaction monitoring and SAR filing for one of the leading Fin-tech company of the USA**

- Managed team of 10 analysts as a POD leader where I provided regular feedbacks and ensured quality and productivity for the team as per SLA
- Managed team performance, Quality control, daily productivity, and work allocation
- Worked in three workflows – TM, Investigations and SAR filing. Reviewed complex and high-risk account and filed SAR on financial crime such as illicit drug sales, money laundering, structuring, cryptocurrency, fraud, MSB, gambling and other financial crimes
- Prepared SAR on findings and shared with FinCen via tool provided by client.
- Conducted detailed analysis on transactions and gathered relevant information on snowflake via SQL query

**KPMG India - September 2018 to September 2019**

**Consultant - Risk consulting (Forensic Investigations)**

**Location(s) worked – Qatar & India**

**Project 1 - AML/CFT framework assessment for one of the largest Bank of Qatar (On-site) - 4 months**

- Conducted review of AML/CFT framework Gap assessment for one of the largest banks of Qatar, as assigned by the Central Bank of Qatar
- Reviewed 12 sections of AML framework for the bank – Governance, RBA, KYC/CDD, EDD (PEPs), SDD, Targeted financial sanctions, Transaction monitoring, Correspondent banking, Employee screening and training, Independent Audit, Record keeping and overall risk assessment
