## Summary

Proficient Java developer with hands-on experience in Java, Spring Boot, Restful APIs, and SQL. Demonstrated track record of efficiently creating high-quality software solutions and adept problem-solving skills. Known for collaborative teamwork and delivering creative solutions within established timelines. Actively seeking a challenging role in a dynamic environment, including client demos, to enhance technical skills and contribute to impactful projects. As a committed software engineer, excels in developing solutions that align with project objectives.

## Work Experience

**Intellect Design Arena Ltd, Mumbai, Maharashtra**          **May'2022 – Present**
**Project Engineer – Java Backend Developer**

- Requirements gathering and engaged in client interactions to understand project needs.
- Implemented OAuth 2.0 specifications in ARX to enhance security measures.
- Developed Queue components to optimize workflow, ensuring efficiency in application processes.
- Contributed to the development of micro-services using Spring Boot, enhancing system modularity.
- Coordinated with the testing team to execute end-to-end testing, ensuring comprehensive quality assurance.
- Developed Restful Web Services utilizing JAX-RS for seamless communication within the application.
- Deployed the entire package on environments such as SIT (System Integration Testing) and UAT (User Acceptance Testing).
- Deployed Web Applications on Application Servers including WebLogic, JBoss, and WebSphere, as well as Cloud Native platforms such as AWS EKS and Red Hat OpenShift.
- Managed and provided guidance to a team of 5-8 individuals, ensuring effective collaboration and achieving team objectives.

**Key Contributions:**
- Played a pivotal role in the ARX development of micro-services, improving system modularity.
- Facilitated seamless deployment on various environments, including Application Servers and Cloud platforms.
- Successfully managed and provided guidance to a team, fostering effective collaboration and achieving team objectives.

# Skill Highlights

- **Programming Languages:** Core Java(JSE), Advance Java(JEE)
- **Methodologies/Frameworks**: Restful APIs, Spring, Spring Boot, Micro-Services
- **Database:** Oracle (SQL), Postgresql
- **JSE Technologies:** JDBC
- **JEE Technologies:** Servlet, JSP
- **Servers:** Apache Tomcat, WebLogic, Jboss, WebSphare
- **Cloud:** AWS
- **DevOps Tools:** Git, Docker, Kubernetes, Jenkins, Maven
- **Project Management Tools:** JIRA, Microsoft Excel and word.

# Education

- **Post-Graduation:** Course - PG-DAC
  - College – CDAC Thiruvananthapuram, Kerala, India
- **Graduation:** Course - B. tech (E&TC)
  - College – MIT (Maharashtra institute of Technology, Aurangabad)

# Project

- **Project: ARX** (Extreme Authentication & Role Based Entitlement exchange).
- **Role**: Associate Consultant
- **Technologies Used**: Core Java, Servlet, JSP, Restful Web Services & Spring Boot Micro-Services.
- **Duration**: 25 May 2022 to present.
- **Description**: ARX works as security layer of all Intellect Products. It provides multiple Authentication types, Authorization and entitlements to users based on role. It also provides User Administration and Management of the users.

# Achievements

Received a prestigious Spot Award at Intellect Design Arena, recognizing outstanding contributions and excellence
