WORK EXPERIENCE

Tech Lead
BFDL (Bajaj Finserv Direct Limited)

12/2022 - Present   *Pune*

Achievements/Tasks

- Led cross-functional teams in the successful delivery of complex projects utilizing AWS cloud infrastructure, Spring Boot framework, and micro-services architecture

- Demonstrated technical leadership by architecting scalable solutions and implementing best practices in AWS services including EC2, S3, RDS, and Lambda

- Managed full project lifecycle from requirements gathering to deployment, ensuring adherence to strict timelines and budget constraints.

- Spearheaded agile methodologies such as Scrum and Kanban, facilitating daily stand-ups, sprint planning, and retrospectives to optimize team performance and delivery efficiency.

- Mentored and coached team members on technical aspects and project management practices, fostering a collaborative and innovative work environment.

- Implemented continuous integration and continuous deployment (CI/CD) pipelines using Jenkins and Docker, reducing deployment time by 30%.

- Collaborated closely with stakeholders to define project scope, deliverables, and milestones, ensuring alignment with organizational goals and client expectations.

- Proactively identified risks and issues, implementing mitigation strategies to maintain project momentum and minimize impact on timelines.

- Conducted technical workshops and training sessions for team members to enhance skills in AWS cloud technologies, Spring Boot development, Kafka, and micro-services architecture.

- Achieved a track record of on-time project deliveries with a focus on quality and scalability, receiving commendation for exceeding client satisfaction and business objectives.
