

# NITESH SHAH

## SOFTWARE DEVELOPER

 +91 8080656667

 Mumbai,

 Shahniteshd@gmail.com

## TECH SKILLS

- Programming Languages: C#, Java Script, Python, SQL, HTML, CSS, Bootstrap
- FrameWork: .Net Core, Angular
- Operating System: Windows, Linux
- Tools: Visual Studio, MSsql, Oracle.
- AI Tools : Co-Pilot, ChatGpt

## EDUCATION

**B.E. Computers ,  
Mumbai University, Mumbai**

06/2015 - 06/2018

**Diploma in Information Technology,  
Vidyalankar Polytechnic (MSBTE),  
mumbai**

08/2012 - 06/2015

## CERTIFICATIONS

**C# Programming (UDEMY)**

**Web Designing Using Django Frame-work (JAN 2020)**

**Python Training (SEP 2019)**

**Data Base Management System  
(NOV 2019)**

**JAVA Training**

## PROFESSIONAL SUMMARY

Innovative Software Engineer with a solid foundation in programming and problem-solving. Proficient in multiple programming languages and development tools, with extensive experience in full-stack development, Agile methodologies, and software testing. Demonstrated ability to design and implement scalable, efficient, and maintainable software solutions. Passionate about staying current with emerging technologies and collaborating with cross-functional teams to deliver cutting-edge products.

## EXPERIENCE

### SOFTWARE DEVELOPER

IIFL SECURITIES / 06/2022 - PRESENT

Collaborated with RMS Team to Update Logic Based on SEBI Regulations:

- Working closely with the Risk Management System (RMS) team to review and adjust system logic in compliance with updated Securities and Exchange Board of India (SEBI) regulations.
- Analyzed regulatory changes and translated them into technical requirements, ensuring seamless integration of new compliance measures into existing systems.

Developing and Maintaining TT Surveillance Application with C# and MSSQL:

- Contributed to the development and maintenance of the TT Surveillance application, utilizing C# for backend development and Microsoft SQL Server (MSSQL) for database management.
- Implemented features and improvements to enhance application performance, stability, and user experience.

Designed and Implemented SSIS and SSRS Packages for Data Management:

- Created SQL Server Integration Services (SSIS) and SQL Server Reporting Services (SSRS) packages to automate data extraction, transformation, and loading (ETL) processes.
- Developed solutions for fetching and transferring data to and from FTP servers, facilitating efficient data handling and reporting.

Developed Hangfire Application Using .NET Core:

- Designed and implemented a Hangfire-based application using .NET Core to manage background tasks and job scheduling.
- Leveraged Hangfire's capabilities to handle complex job workflows and ensure reliable execution of scheduled tasks.

Created Separate Application for Voluntary Freeze Changes with REST API and for DR setup:

## LINKS

## LANGUAGES

English

Hindi

Gujarati

Marathi

- Developed a dedicated application to manage voluntary freeze changes, utilizing REST APIs for communication and Hangfire for background job scheduling.
- Implemented SQL Server jobs to support and automate freeze change processes, improving system efficiency and accuracy.

### Automated Jobs for Order Management and Process Optimization:

- Created and managed automated jobs to handle various order processing tasks, including order cancellations, intraday square-offs, and GTT (Good-Til-Triggered) order placements.
- Developed and optimized SQL job scheduling to ensure timely execution of processes and reduce manual intervention.

## INTERN

MAZE INFOCOM SOLUTIONS PVT. LTD / 01/2021 - 12/2021

### Developed and Implemented Website Using Angular:

- Designed and developed a dynamic, responsive website using Angular, leveraging its powerful features for a seamless user experience.
- Implemented key Angular components, services, and modules to create a modular and maintainable codebase.
- Integrated RESTful APIs to enable data interaction and ensure real-time updates.

## TRAINEE ENGINEER

MPHASIS LTD / 02/2019 - 07/2019

### Database Handling Team (Extracting, Analyzing, Triggering Data)

Primary Domain: Oracle Database

- **Extracted and Analyzed Data:** Extracted and analyzed data to derive actionable insights and support decision-making.
- **Developed Triggers and Procedures:** Created and implemented triggers and stored procedures for effective data handling and automation.
- **Conducted Impact Analysis and Monitored Data Progress:** Performed impact analysis and monitored client data progress to ensure accuracy and timely updates.
- **Participated in Defect Triage and Client Stand-Up Meetings:** Engaged in defect triage and attended stand-up meetings with clients to address issues and track project progress.

## ACHIVEMENTS

### Smart India Hackathon,

Appreciation for Participation in Smart India Hackathon-2017 held by Gov. of India

### ACM Sakec,

Certificate of Participation for Innovative Project hunt held by ACM SAKEC(April2018)

## SKILLS

**Great Communication Skills, Ability to work under pressure**

**Critical Thinking and Problem Solving.**
