---

## **OBJECTIVE:**

- Work towards attaining a responsible position in the company, to develop and utilize my capabilities to help the team and organization achieve their goals and cherish being a part of the successful team.

## **PROFESSIONAL SUMMARY:**

- Oracle Database Administrator with around 4 years of experience in installation, configuration, upgrades, backup & recovery and RAC support on Oracle 12c/19c. Skilled in RMAN, Data Guard, patching, and performance tuning across production and development environments.

## **TECHNICAL SUMMARY:**

- Extensive experience in Oracle Database Administration on 11g, 12c, and 19c versions, including installation, configuration, and maintenance in Standalone and RAC environments on Linux/UNIX platforms.
- Hands-on expertise in database creation and decommissioning, user management, tablespace management, table/index management, reorganization (reorg), and statistics gathering.
- Strong proficiency in Oracle Real Application Clusters (RAC) with MIRA (Multi-Instance Redo Apply) and SIRA (Single-Instance Redo Apply) configuration.
- Experience with 24x7 production support across Development, Test, and Production environments.
- Proficient in control file, online/archived redo log management and network services configuration including Listener and TNS entries.
- Skilled in Oracle patch management using OPatch, including PSU patches, bug fixes, and rolling patches on multi-node RAC (10-node RAC patching experience).
- Involved in Oracle database upgrades, especially from 12c to 19c.
- Solid understanding of Oracle Data Guard, including setup, configuration, and administration of Physical Standby and Snapshot Standby databases.
- Experienced in Oracle database backup and recovery using RMAN, Hot/Cold backup, and logical exports/imports (Data Pump, exp/imp).
- Proficient in schema management, roles/privileges, and day-to-day monitoring including alert logs.
- Strong hands-on with ASM (Automatic Storage Management) — monitoring, adding disks, and migrating databases from non-ASM to ASM.
- Experience in Oracle Database Vault configuration in production and Transparent Data Encryption (TDE) and Data Redaction implementations.
- Knowledge of DB links and replication technologies.
- Strong analytical and problem-solving skills with a customer-focused mindset and excellent communication skills.

## **TECHNICAL SKILLS:**

- |                            |  |
|----------------------------|--|
| • Operating Systems        | LINUX, Unix  |
| • RDBMS                    | Oracle 12c/11g/19c RAC and Standalone  |
| • Oracle Tools & Utilities | RMAN, EXPDP/IMPDP, Data pump, OEM, ASMCMD, OPatch ,<br>OPatch Auto , DBCA, DGMGRL and ASMCA. |
| • MAA                      | RAC, ASM, Flashback, Dataguard   |

## **EDUCATION SUMMARY:**

.MSC CS (Computer Science) - Mumbai University  
.BSC CS (Computer Science) - Mumbai University  
.HSC (Science) - Maharastra State Board  
.SSC - Maharastra State Board

## **Certification:**

Oracle Certified Professional (19c)  
Oracle Certified Associate (19c)  
ITIL 4  
Google Cloud Associate  
Microsoft Azure Associate

## 1. **WORK EXPERIENCE:**

Organisation : Tata Consultancy Services  
Customer : State Bank of India  
Project : Core Banking Solutions (CBS)  
Role : DBA  
Duration : 08 September 2021 to 29 August 2024

2.

Organisation : Simple Logic IT Private Limited  
Customer : State Bank of India  
Project : UPI (Unified Payment Interface)  
Role : DBA  
Duration : 2nd Sep 2024 to 27 Sep 2025
