TO WHOM EVER IT MAY CONCERN

Re: Mr. Uwais Syed Mohammed

Dear Sir/Ma'am:

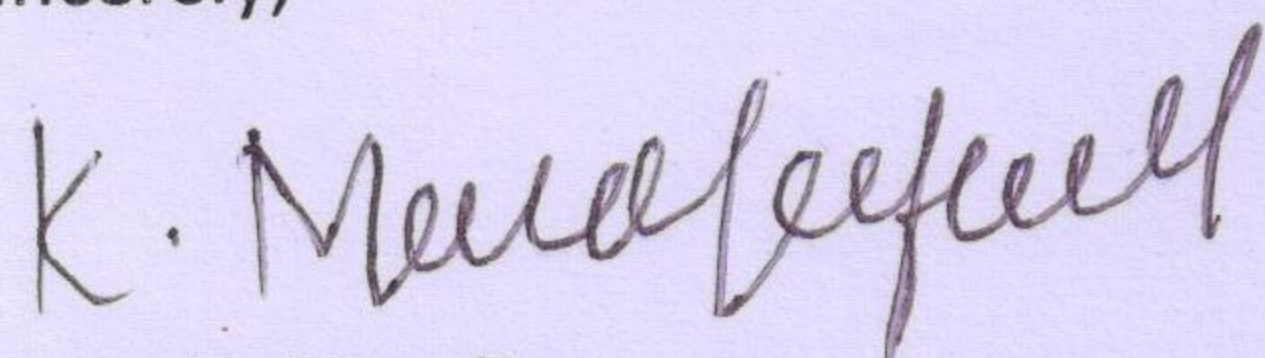

This letter is issued upon the request of Mr. Uwais Syed Mohammed to verify his employment with Wells Fargo Securities – GIB division located at 550 South Tryon St, Charlotte, NC 28202. He is responsible for Quantum e-trading application. Quantum e-trading application supplements the manual bidding process, with an automated solution that enables the traders to bid approximately 9000 bonds daily at Wells Fargo securities.

Mr. Uwais Syed Mohammed worked at Wells Fargo Securities in a contracting position performing the duties of a Senior Developer for the duration beginning March, 2014 until February, 2016. During this tenure, Mr. Uwais Syed Mohammed was involved in analyzing the technical needs and debugging support for the specialized programming needs to suit our application and hardware environments. His responsibilities included in planning, implementation, maintenance and support of software products for our e- trading platform. Additionally, we want to clarify our mutual understanding that Zylog systems, LTD was fully responsible for the salary, etc and satisfy any other requirements concerning the direct employer employee relationship of Mr. Uwais Syed Mohammed.

The primary goal to employ Mr. Uwais Syed Mohammed was to design and develop the processing interface of the quantum application on top of the customized Spring framework to process FIX Messages received in the application through various ECN sources. Develop major functionality for trade execution, Implement Unit testing and integrating testing during the projects and code business components using various API's of Java.

Please feel free to contact me at +1 – [704]-410-0752 for any additional information.

Sincerely,

Kosaraju, Murali
Director – GIB E-Trading Technology,
