## ● **Worked projects**

I have worked in Hollywood and commercials and series projects.

Pikachu: - Anamorphic shot with accurate Lineups distortion and squeeze animation.

Avengers endgame :- In Avengers I did a train carriage and a char face object on the track. RotoAnim done by tracking faces in 3DE file and merging body manually in Maya with face and body proportionally perspective.

Nutcracker :- In Nutcracker I worked on witness camera from different angles

The Fantastic four :- Body Track Face Track Baby has been used in this project with total body stabilization with proper tight quality.

Commercial :- In commercial projects I've built proxies with object tracks with proper detail and worked on object cloth animation. Also working heavy motion blur shots manually solved by cameras.

Mr.x :- Accurate 2D tracking in crowded public with heavy motion blur on camera track shots in Mr.x
