PROFILE

My background is in VFX and animation, and I have worked as a compositor for more than 8 years. I also have technical proficiency with software's like Nuke, Adobe Photoshop, After effects, Silhouette, Mocha Pro and Autodesk Maya. I love producing work of the highest caliber, I have a keen eye for detail, and I understand the compositing workflow. I can quickly and efficiently pick up knowledge from seasoned mentors and artists thanks to my ability to collaborate with others. In the fast-paced, dynamic world of visual effects, I can't wait to keep honing my craft and seeing any project I work on through to completion.

WORK EXPERIENCE

VFX SENIOR COMPOSITOR, Digital Domain
01/26 – Present | Hyderabad

- **High-End CG Integration:** Execute complex "hero" shots for major studio releases (Marvel MCU, seamlessly blending multi-pass CG, photoreal digital humans, and volumetric FX).
- **Collaboration & QC:** Partner closely with Lighting and CG Supervisors to optimize AOV strategies and perform final technical QC on shots prior to client delivery.
- **Technical Troubleshooting:** Solve high-level pipeline challenges, including complex deep-data overlaps, 3D camera projections, and custom grain management for 4K/8K deliverables

VFX SENIOR COMPOSITOR,
PEOPLE MEDIA FACTORY

12/2024 – 01/2026 | HYDERABAD

- **Photo-Realism:** Seamlessly integrated 3D environments and matte paintings into live-action plates using Nuke's 3D workspace and projection mapping.
- **Technical Problem Solving:** Tackled difficult "save" shots, involving extreme grain management, lens flare replication, and complex motion-blur reconstruction.
- **Advanced Keying:** Mastered extraction on challenging surfaces (fine hair, motion blur, and transparent materials) using a combination of IBK, Primatte, and Keylight.
