## Education

---

### Lovely Professional University, Phagwara, India

Bachelor of Technology in Computer Science and Engineering - **7.7 CGPA** *Aug 2019 – May 2023*

### St. Joseph's Convent, Varanasi, India

Class XII (ISC), Secured an aggregate of **79.7%** *2019*

Class X (ICSE), Secured an aggregate of **85.86%** *2017*

## Experience

---

### Full Stack Software Developer

*Foqal Analytics, May 2025 – Present*

- Architected and deployed a microservices ecosystem using Flask, Spring Boot, NestJS, and Next.js, integrated with Firestore and Firebase for real-time, serverless workflows.
- Implemented gRPC and REST APIs, securing credentials via Google Cloud Secret Manager and enforcing enterprise security practices.
- Developed and optimized distributed services in Python and Java, containerized with Docker, and deployed to Google Cloud Run for high availability.
- Built and documented APIs using Swagger, validated with Postman, reducing integration defects by 30%.
- Integrated AI-powered chatbots into tools, automating workflows and improving engagement.

### Full Stack Software Developer

*Biz2X, Jan 2025 – May 2025*

- Delivered backend services using Django, Flask, Spring Boot, and Spring Cloud to enhance financial platforms.
- Improved API performance, cutting response times by 25%.
- Developed Angular + NgRx components for loan management systems.
- Collaborated with cross-functional teams for cloud deployment and feature integration.

### Full Stack Java Developer

*UGro Capital, Jan 2023 – Dec 2024*

- Developed a User Management System and Anti-Money Laundering interface in Spring Boot.
- Integrated vendor APIs and built schedulers for automated reporting and communications.
- Created secure API endpoints, ensuring seamless integration with partner services.

## Skills & Tools

---

**Languages:** Java, Python, C++, JavaScript, Golang

**Frontend:** Angular, React, Next.js, Material UI, NgRx, HTML, CSS

**Backend:** Spring Boot, Spring Cloud, Flask, Django, NestJS, Node.js

**Databases:** MySQL, MongoDB, Firestore

**Cloud & DevOps:** Google Cloud Run, Docker, AWS, Google Cloud Secret Manager

**API & Communication:** REST APIs, gRPC, Swagger, Postman

**Concepts:** Microservices Architecture, Distributed Systems, Data Structures & Algorithms
