## Professional Experience

### **Teleflex Medical Private Limited**

| Production Planning and Controller | 2023-present | Pondicherry

- Planned and executed **daily and monthly production schedules** based on customer demand and material availability.
- Coordinated with **procurement, warehouse, and production teams** to ensure seamless material flow across the supply chain.
- Monitored **Material Requirement Planning (MRP)** and raised timely purchase requisitions to avoid shortages or overstocking.
- Managed **inventory levels** of raw materials, semi-finished, and finished goods to support just-in-time (JIT) production.
- Analyzed **demand forecasts** and aligned production output with customer order priorities.
- Handled **export and import documentation**, including **invoice issuing, packing lists, and shipping coordination** with logistics partners.
- Ensured **accurate and timely dispatch** of export consignments while complying with customs and shipping regulations.
- Coordinated with **vendors and freight forwarders** to track material movement and ensure on-time delivery.

- Prepared and maintained **daily production reports, WIP status, and delivery performance metrics** for management.
- Supported implementation of **Lean manufacturing, 5S, and continuous improvement (Kaizen)** to enhance productivity and reduce waste.
- Improved **on-time delivery performance** and reduced material shortage incidents through better planning and supplier coordination.

**Hands-on experience in SAP** for production, material management, and invoice processing using T-codes:

- **VF01** – Single Invoice Creation
- **VL10B** – Purchase Orders Due for Delivery
- **VL01N** – Create Outbound Delivery with Order Reference
- **ZMRPPO** – Back Order List
- **MM03** – Material Master Data
- **MD04** – Display Stock/Requirements Situation

### **Projects / Achievements**

Ensured **zero stock-outs** using SAP (MD04, ZMRPPO).

Streamlined **invoice processing** via SAP (VF01, ZVF04, VL10B).

Improved **supply chain coordination** with procurement and logistics.

Supported **Lean & 5S initiatives**, enhancing efficiency and space utilization.

Ensured **timely export documentation and dispatch accuracy**.
