

AKASHBELSARE

Android Developer

+918839156369 belsare797@gmail.com Indore

Summary

Proficient Android Developer with over 5 years of experience specializing in Kotlin and delivering high-performance, seamless mobile applications. Experienced in designing and developing robust, scalable, and maintainable Android codebases using modern architectural patterns such as MVVM and MVP. Adept at integrating RESTful APIs, optimizing application performance, and crafting intuitive, user-centric experiences. Strong problem-solving and debugging skills with a consistent focus on code quality, scalability, and continuous improvement.

Projects

Project: Qamoos53

With the Raza and Dua Mubarak of Syedna Aaliqadr Mufaddal Saifuddin TUS - DEH Attalim North America has launched the new Qamoos53 App for Lisan-ud-dawat to English/French reference dictionary. There are 2 sections - Thematic and Qamoos (Listing) dictionaries where Mumineen can easily search any word in Lisan-ud-dawat, English, and French for the meaning and translation.

Project: Service Hero

Like you, we care about service. Service Hero enables customers like you to rate how well brands meet your expectations. We then use feedback from you and tens of thousands of other users to rank brands. Launched in 2010, Service Hero has collected over 300,000 validated ratings covering 400 private sector companies in 18 industries. We are 100% independent, completely neutral, and rely solely on the voice of consumers in all our results.

Project: My Derm Job

Our team at myDermRecruiter we work just as hard for you, the candidate, as we do for our clients. We are your advocate throughout your entire job search, ensuring you get what is fair and what is competitive, in a practice that matches your needs and wants. As the #1 Dermatology recruiting firm in the nation, we get to pick and choose what practices we work with and we simply choose not to work with clients who do not treat physicians extremely well, period.

Project: Ajjnodin

Ajjnodin app is the original app developed by Aliasgar Sk. Fakhruddin of www.ajjnodin.com. This app has been launched for mobile users who want to access the information provided on the website offline. Most of these sections have been provided offline except downloads which would otherwise increase the app size. The features provided in the app includes
