💼 PROFESSIONAL EXPERIENCE

Chinmay Finlease Limited 🔗 , *Software Engineer*
06/2024 – 12/2025 | Ahmedabad

- Architected microservices to manage high-traffic workloads with Node.js and PostgreSQL.
- Implemented database sharding and caching using Redis for improved scalability.
- Designed load-balanced APIs in Nginx and Docker environments for optimal performance.
- Enhanced CI/CD workflows, achieving faster and more reliable deployments.
- Mentored junior developers while contributing to backend code reviews and establishing best practices.
  Key Achievements: Improved backend efficiency and played a key role in developing scalable, maintainable API infrastructure.

Aveosoft Pvt Ltd 🔗 , *Full stack developer*
02/2022 – 06/2024 | Ahmedabad

- Engineered and documented RESTful APIs for various projects to ensure clarity.
- Automated repetitive tasks through cron jobs for timely emails, reports, and database updates.
- Integrated third-party tools, including OneSignal, for effective push notifications.
- Implemented ORM/ODM frameworks to enhance database interactions.
- Established Stripe payment gateway for efficient order processing and UPI/card transactions.
- Collaborated with cross-functional teams to deliver comprehensive product features punctually.
  Key Learnings: Strengthened understanding of backend development, API architecture, automation, and payment integrations.

eDelta Enterprise Solutions Pvt Ltd 🔗 , *Intern Software Engineer*
09/2021 – 12/2021 | Ahmedabad

- Gained practical experience in Node.js, MongoDB, and MySQL.
- Developed backend modules for e-commerce features like login, cart, and checkout.

📁 PROJECTS

Chinmay Personal loan App 🔗

- Worked on backend optimization and implemented caching mechanisms to improve performance and scalability.
- Built WebView integrations enabling execution of custom scripts and automation within third-party web pages.
- Built and integrated microservices using Kafka for asynchronous communication and data streaming.
- Performed database optimization through indexing, query tuning, and schema refinement to enhance efficiency.

Admin Auction Panel 🔗

- Implemented JWT-based authentication for secure user access.
- Created cron jobs to automate MSI reports and daily tasks.
- Designed and developed a referral system aligned with business logic.
- Integrated third-party APIs (Rainforest 🔗 , BlueCart 🔗 , SERP API 🔗) for user verification and data processing.
- Designed and maintained a normalized database schema for the entire project.

Roads and Buildings Department Goverment of Gujarat 🔗

- Designed and implemented complex business logic.
- Integrated Google reCAPTCHA v3 for bot prevention.
- Utilized Sentry for real-time error tracking and monitoring.

Jungle Brothers 🔗 , *JungleAlliance is a gym app for product sales to gym owners, managing coaches and members, and enabling coach and new member subscriptions.*

- Worked on stripe payment
- Managing complex redux logic
- Designed and developed a referral system according to business logic.

👤 SUMMERY

Dynamic Software Engineer with a proven track record at Chinmay Finlease Limited, specializing in Node.js and PostgreSQL. Successfully architected scalable microservices, mentoring junior developers along the way. Passionate about backend development and automation, I thrive in collaborative environments, delivering impactful solutions that drive efficiency and performance.

🧠 SKILLS

Programming language

- Javascript
- Typescript

Frontend Technologys

- React
- HTML
- CSS
- Material UI
- Bootstrap

Backend Technology

- Node.js
- Nest.js
- Express.js
- Kafka
- Docker

Database

- PostgreSQL
- MongoDB
- Clickhouse
- Redis

🎓 EDUCATION

Bachelor of Computer Application (BCA), *Mohanlal Sukhadia University (MLSU)* 🔗
2020 | Udaipur, Rajasathan, India
