- LinkedIn

### PROFILE

DevOps Engineer with 1+ year of experience in using AWS, Linux, Docker, Jenkins, Terraform, Ansible, Github Action and Kubernetes to automate and manage cloud systems. Looking to improve deployment speed and reliability through better CI/CD and cloud solutions.

### WORK EXPERIENCE

**Nenosystems Consulting Services Indore** 2024 - PRESENT  
Cloud and Devops Engineer

- Automated CI/CD pipelines using Jenkins and GitHub Actions, reducing deployment time by 99% and enabling multi-environment deployments.
- Migrated infrastructure provisioning to Terraform, improving consistency and reducing manual effort by 35%.
- Used Ansible and Docker for configuration management and containerization, reducing build errors by 20%.
- Optimized AWS services (EC2, S3, RDS, IAM, VPC, CloudWatch, SNS), including reducing S3 costs by 20% using lifecycle policies.

**Linux World Informatics Pvt. Ltd. Jaipur** JUNE 2023- SEP 2024  
Summer Internship / Industrial Training

- Gained hands-on experience with DevOps tools and cloud technologies including Docker, Kubernetes, Jenkins, Terraform, and AWS.
- Built and automated CI/CD pipelines for efficient and reliable application deployment.
- Practiced Infrastructure as Code (IaC) to provision and manage cloud infrastructure.
- Learned best practices for scalable, secure, and high-availability systems, strengthening end-to-end DevOps skills.

### SKILLS

- Cloud Platforms:** AWS, GCP
- Operating Systems:** Linux (Ubuntu, CentOS, RHEL), Windows
- Scripting Languages:** Shell Scripting
- Programming Languages:** Python (basic)
- Version Control:** Git, GitHub
- CI/CD Tools:** Jenkins, GitHub Actions
- Infrastructure as Code (IaC):** Terraform
- Containerization & Orchestration:** Docker, Kubernetes
- Configuration Management:** Ansible
- Monitoring & Alerting:** Datadog, PagerDuty
- Project Management Tools:** Jira

### TRAINING AND CERTIFICATIONS

- Summer Training Certificate - Linux World
- CloudPractitionerEssentials - SkillBuilder

### EDUCATION

**Bachelor of Technology** - Indira Gandhi Engineering College, Sagar.  
July 2020 - June 2024

### PROJECTS

**Hyland Nuxeo - Content Management Platform (AWS)**

- Deployed and managed Hyland Nuxeo on AWS using EKS, ECS, and Docker, ensuring high availability and scalability.
- Built CI/CD pipelines with Terraform and Jenkins for automated, zero-downtime deployments.
- Managed cloud infrastructure including VPCs, EC2, S3, and IAM roles with Infrastructure as Code (IaC).
- Monitored platform performance and reliability using Datadog, ensuring smooth operations.
- Implemented blue-green deployments for risk-free updates and enhanced system stability.
