PROFESSIONAL SUMMARY

Results-driven Full Stack / MERN Developer with 2+ years of experience in building and maintaining scalable, high-performance web and mobile applications. Adaptable and resourceful with passion for creating innovative web solutions. Proficient in modern front-end and back-end technologies, including HTML/CSS and JavaScript for front-end, and Node.js and MongoDB for back-end. Capable of delivering high-quality, user-centered applications that drive business success.

EXPERIENCE

DreamSoft4u Pvt. Ltd. - Jaipur, Rajasthan

Feb 2025 – Present

MERN Stack Developer

- Engineered a healthcare platform with features like online doctor consultations, e-prescriptions, medicine orders, lab & genetic tests, and AI-powered hair analysis.
- Implemented modular, reusable components and followed best practices to maintain clean and scalable code.
- Worked in an Agile environment, participating in sprint planning, code reviews, and daily stand-ups to ensure timely delivery of project milestones.

Deeporion Technology Pvt. Ltd. - Jaipur, Rajasthan

Apr 2023 – Feb 2025

React JS Developer

- Collaborated with Builder.ai projects, contributing to the design and development of advanced web and mobile applications using React.js and React Native with TypeScript.
- Debugged and optimized existing code to resolve bugs and performance issues.
- Participated in daily standup meetings to provide and assess progress updates.
- Collaborated with back-end developer to integrate user interface elements into applications.

PROJECTS

Genoroot Application [Link](#)

- HealthCare App Similar to Traya.
- Developed and integrated a comprehensive healthcare platform enabling users to consult doctors, access e-prescriptions, order medicines, book lab & genetic tests, and perform AI-based hair analysis — all through a single secure interface.
- Built a real-time doctor-patient communication system with secure, time-bound chat functionality.
- Enabled patients to book online and offline appointments with doctors, integrating secure Razorpay payment processing.
- Integrated WhatsApp messaging and SMS notifications for appointment confirmations, reminders, and prescription updates to improve patient engagement.

RPMS-Maxlink [Link](#)

- Integrated Tenovi's third-party connected medical devices into the platform, enabling patients to record daily health readings seamlessly.
- Developed secure data flow to allow patients to view their readings both on the Tenovi dashboard and directly within the Maxlink Health portal.

Music Player

- Built a music player application from scratch with features such as duration tracking, seeking, and skipping songs.
