## Experience

---

### Software Developer

Java Research Development

Bhopal(M.P.)

Nov 2025- Present

- Investigated production issues by reproducing defects in test environments and documenting root causes.
- Coordinated with QA and engineering teams during hotfix and patch releases.

### QA Tester

Fintaskly Food RX

Remote

June 2025 – Nov 2025

- Executed end-to-end manual testing for fintech and food-delivery web platforms across critical user journeys.
- Designed and maintained test cases for functional, regression, smoke, and UAT cycles.
- Logged high-quality defects with reproduction steps, screenshots, and severity levels, improving release stability.
- Validated payment flows, order lifecycle, authentication, and admin dashboards, and also partnered with product and development teams to verify fixes and ensure on-time releases.

### React.js Intern

Netlink

Bhopal(M.P.)

Jan 2025 – June 2025

- Built responsive React components for internal dashboards used by enterprise teams.
- Supported sprint-level testing by writing and executing manual test cases for new features.
- Reported and tracked defects in JIRA, accelerating resolution during release cycles, contributed to smoke and regression testing before deployments.

## Technologies

---

**QA and Testing Skills:** Manual Testing, Test Case Design and Execution, Bug Reporting and Tracking, Functional Testing, Regression Testing, Smoke Testing, UAT, STLC, SDLC, API Testing (Postman), Web Application Testing, Mobile Web Testing, Agile / Scrum

**Tools:** JIRA, Postman, Git, Chrome DevTools

**Programming and Web:** Java, JavaScript (ES6), HTML, CSS, SQL, React.js, Tailwind CSS

## Education

---

Lakshmi Narain College of Technology & Science, Bhopal

Dec 2020 – June 2024

B.Tech in Computer Science

- CGPA: 8.83/10

## Projects

---

### Kanban Board

[github.com](#) 

- Built a responsive Trello-like Kanban board with pure React and JavaScript, featuring custom drag-and-drop, infinite scroll (10,000+ cards), and keyboard navigation
- Implemented full card management: add, edit (inline/modal), delete, and reorder, with state persistence using localStorage, and created exploratory and regression test scenarios for UI flows and edge cases.

### Amazon Lite

[github.com](#) 

- Product Showcase: Designed an extensive product catalog featuring diverse categories, each with detailed descriptions mimicking the expansive selection of products found on Amazon.
- Incorporated interactive elements such as buttons, forms, and hover effects to improve user engagement.
