Skills

- 13 years of IT experience with SAP NetWeaver's Process Integration (7.1,7.3,7.4 dual stack,7.5 Single Stack).
- Experience in **CPI (Cloud Platform Integration)** on scenarios like Master data postings using Idocs.
- Created Destinations in CPI, knowledge on simulating the messages.
- Worked on connecting with API's using CPI.
- Experience in integration of SAP and non-SAP systems in A2A scenarios using PI/PO with 5 full lifecycle implementations using both synchronous and asynchronous communication (end to end) interfaces. Expertise in complete end to end interface analysis, technical documentation, design, development, implementation, and support.
- Technical expertise in integrating SAP products with non-SAP 3rd party applications using **IDoc, HTTP, JDBC, File, REST, SOAP, RFC, SFTP, JMS** adapters.
- Expertise in NWA configurations and customization of PI-Basis functions like setting up of **RFC Destinations, Port and Partner Profiles, Proxy, IDoc configurations and Alert configurations** in both ECC and PO systems.
- Expertise in creating **System Landscape** (Technical System and Business systems), **Enterprise Service Repository** (Message mappings, Interface Mapping), **Integration Directory** (Configuring Channels, Receiver/Interface determination) objects.
- Experience in designing and developing end to end A2A interfaces using various XI methods such as Multi-mappings, Alerts, Graphical, Java Mapping and User defined functions.
- Expertise in creating end to end scenarios using adapter modules such as RequestResponseBean, MessageTransformBean, PGPEncryption/Decryption module etc.
- Good runtime analysis, monitoring and troubleshooting capabilities using Message Monitoring, Performance Monitoring, Channel Monitoring in Runtime workbench and transactions like SM59, SXMB_ADM AND SXI_CACHE etc.
- Monitored the PI Runtime Cache. Performed the Manual refresh and Delta refresh for CPA cache and PI runtime cache.
- Knowledge on AIF(Application Interface Framework)

- Worked on deploying and managing API's using One API portal
- Worked on Salesforce and ARIBA Integration
- Knowledge on EDI Interfaces & SAP Cloud platform
- Written VB Macros in excel for Master data consolidations.

Work Experience

Role: **SAP PI Consultant**

Client: **Britannia Industries**

Project: **SAP S/4 HANA Migration (Feb 2020 to till date)**

Team size: 1

Project Description: The primary objective of this is to migrate the existing business process of ECC system to S4HANA system.

Responsibilities:

- CPI configurations done for the existing interfaces and the changes in the mapping.
- PI mapping changes in the EDI process.
- Part of loading Master data for MM Module like Storage location, Open PO's, Inventory.
- Written Excel macros for the consolidation of Master data loads.
- Reporting done for the status of the project

Role: **SAP PI Consultant**

Client: **Page Industries – Jockey India**

Project: **SAP - JDA Migration (Aug -2019 to till date)**

Team size: 1

Project Description: The primary objective of this project is to extract data from SAP and send it to JDA for all Demand/Supply interfaces to forecast and plan.

Responsibilities:

- As part of this project implemented the demand/supply interfaces in SAP PI like Material master, Customer Master, PO/PR, UOM, SKU, BOM etc.
- Configured ALE setup in all environments for Idoc
- Message transformation has been done to send data to JDA
- Was Part of discussions with Business, Technical and Functional teams as part of requirement gathering, analysis on integration possibilities with SAP to provide feasible solutions.

Role: **SAP PI Consultant**

Client: **Mercedes Benz – MBRDI**

Project: **CoFiCo and Information Office (Jun 2017 – Aug 2019)**

Team size: 2

Project Description: The primary objective of this is to integrate Supplier Database with SAP. To develop interfaces with integrating cloud using API's.

Responsibilities

- As part of this project, worked on requirement gathering for Supplier Database Integration during design phase.
- Post design phase, interface implementation was done as part of the requirement by integrating Java based application, Supplier database.
- Worked on other interfaces that are integrating the SAP modules MM, SD, and FICO
- Providing support on any incidents or issues in Production environment
- Handling calls with customers on the changes and new requirements

Role: SAP PI Consultant

Client: General Electric Lighting, US.

Project: ARIBA & SFDC Integration (Sep 2016 – May 2017)

Team Size: 4

Project Description: The primary objective of this project is to integrate SAP ECC and ARIBA Systems. And to integrate SAP ECC with Sales Force system. To migrate data from SAP ECC to ARIBA for all Purchase Orders, Order Confirmations, ASN, Invoice, Payment Status etc. We have migrated Customer & Invoice Master Data of SAP to Salesforce.

Responsibilities
