CAREER OBJECTIVE

Willing to work under a challenging and professional environment with exposure to new technologies as SQL and MSBI developer in the area of SQL SERVER. With a position as a MSBI Developer where I can use my analytical skills, experience and knowledge in the business process to make a difference and improve the business. And this role further helps me to advance my skills and use my experience for new challenging projects in future.

PROFESSIONALSUMMARY

- Professional IT Industry Experience of **5.5 years** as a software developer in the area of Microsoft Business Intelligence (MSBI) development and have knowledge in Data Warehousing (DW) applications, primarily using Microsoft SQL Server.
- Hands on experience in Extract, Transform & Load (ETL) development using
- SQL Server Integration Services (SSIS), Power BI and SSRS
- Demonstrated expertise in utilization of ETL tools including SQL Server
- Integration Services (SSIS), ETL package design and RDBMS systems likeSQL Servers.
- Experience in using SSIS tools like Import and Export Wizard and SSIS Package Designer
- Expertise in enhancing and deploying the SSIS Packages from development server to production server
- Worked on Transformations like Conditional Split, Derived Column,
- Data Conversion, Lookup, Merge, Join, Union All and Multicast.
- Experience in using variables, expressions and functions for the reports with experience in handling sub reports in Power BI.
- Knowledge in extraction of data from various data sources into Power BI desktop followed by transformation in order to generate Reports and dashboards.
- Experience in writing parameterized queries, drill through reports and formatted SQL server reports in SSRS.
- Strong analytical and problem-solving skills dedicated to maintaining the high-quality standards.
- Worked with BI Team in data Investigation, responsible for data visualization.
- Solid understanding of data modelling, warehousing, and data architecture.
- Experience with Azure data services like Azure Data Factory (ADF).

WORK EXPERIENCE

- Working for Clover Infotech pvt ltd. as **Senior Software Developer**
  From Apr 2024 - Till Date
- Worked for Filix Ecom Solutions from Aug 2023 – Apr 2024
- Worked for Epic Technology Research Pvt Ltd. from Sept 2022 – July 2023
- Working for AJ Techsoft Pvt Ltd from Aug 2019 – Aug 2022

PROJECT EXPERIENCE

Project 1

Project   : Insurance Data Management System
Client   : Star Union Dai-Ichi Life Insurance
Duration   : Apr 2024 - Present
Technology   : SQL Server, SSIS, SSRS, Power BI, Azure Data Factory

Roles & Responsibilities:

➢ Developing ETL packages using SSIS and ADF for insurance data processing.

➢ Creating Power BI dashboards for data visualization and insights.

➢ Implementing data migration strategies using Azure Data Factory.

➢ Optimizing stored procedures for faster data retrieval.

➢ Designing SSRS reports with drill-down and parameterized features.

➢ Automating data pipelines for real-time reporting.

➢ Ensuring data accuracy and consistency across multiple sources.

➢ Collaborating with business teams to meet reporting requirements.

Project 2

Project   : E-commerce Data Processing
Client   : Filix Ecom Solutions
Duration   : Aug 2023 - Apr 2024
Technology   : SQL Server, SSIS, Power BI, Python

Roles & Responsibilities:

➢ Extracting and processing e-commerce transaction data using SSIS.

➢ Developing Power BI reports to track sales and customer behavior.

➢ Writing SQL queries for data analysis and reporting.

➢ Automating data pipelines for seamless updates.

➢ Implementing data security measures for sensitive information.

➢ Enhancing system performance through database tuning.

➢ Supporting business users in data-driven decision-making.

➢ Ensuring data accuracy and consistency in reporting.

Project 3
Project   : Financial Analytics Platform
Client   : Epic Technology Research Pvt Ltd.
Duration   : Sept 2022 - July 2023
Technology   : SQL Server, SSIS, SSRS, Power BI, PostgreSQL

Roles & Responsibilities:

➢ Developing ETL workflows using SSIS for financial data processing.

➢ Managing PostgreSQL databases for efficient data storage and retrieval.

➢ Designing Power BI dashboards for real-time financial analytics.

➢ Creating SSRS reports for business performance tracking.

➢ Writing optimized SQL queries for PostgreSQL and SQL Server.

➢ Ensuring data consistency and accuracy in financial reporting.

➢ Automating report generation and scheduling using SQL Server Agent.

➢ Collaborating with finance teams to refine and improve reporting metrics.

Project 4
Project   : Enterprise Data Management
Client   : AJ Techsoft Pvt Ltd.
Duration   : Aug 2019 - Aug 2022
Technology   : SQL Server, SSIS, SSRS, PostgreSQL

Roles & Responsibilities:

➢ Developing ETL packages using SSIS for data migration and integration.

➢ Managing PostgreSQL databases for enterprise data storage.
➢ Writing stored procedures and optimizing SQL queries for better performance.

➢ Creating SSRS reports for business intelligence and data visualization.

➢ Implementing data transformation and validation techniques.

➢ Ensuring data quality and consistency across multiple environments.

➢ Scheduling automated data updates using SQL Server Agent.

➢ Collaborating with cross-functional teams for data-driven insights.

➢ Understanding requirements and data sources for ETL package development.

➢ Writing complex queries and preparing stored procedures.

➢ Utilizing transformations like Derived Column, Lookup, Merge Join, Multicast, and Sort for data processing in SSIS.

➢ Configuring and implementing ETL logging for efficient package management.

➢ Scheduling ETL packages using SQL Server Agent for automation.

➢ Migrating databases from SQL Server 2012 to SQL Server 2016 using SSIS.

➢ Designing and implementing drill-down and drill-through reports in SSRS.

➢ Scheduling dashboards in Power BI as per business requirements.

➢ Generating weekly and monthly reports based on client specifications.

TECHNICAL SKILLS

- ETL Tools - SQL Server Integration services (SSIS), ADF
- Reporting Tools – SSRS, Excel, Microsoft Power BI.
- Database - SQL Server, Excel, Azure Data Factory.
- Operating System - MS-Window, Linux Distributions
- Procedural Language - C Programming
- Object Oriented language - C++ Programming
- Virtual Machine based Programming - Java Programming, .Net
- Web Technologies: HTML/HTML5, CSS, JavaScript
- Testing Techniques: Unit testing
- Data Handling: Data modelling, Data warehousing, Data Architecture.

EDUCATIONAL QUALIFICATION

BCA, SSBES's Institute of Technology and Management, Nanded, 2019

PERSONAL INFORMATION

Date of Birth   : 20/09/1997
Nationality   : Indian
Material Status   : Single
Father's Name   : Shivaraj Sambhaji Shete

DECLARATION

I hereby declare that above details are true and correct to the best of my knowledge it would be pleasure to work in your firm.
