## PROJECTS

### **Project 1: SmartRetail - Inventory and Sales Management System.**

**Role : Full Stack Developer (June 2022 to Nov 2023)**

SmartRetail is an advanced inventory and sales management system designed to streamline retail operations. The system provides real-time inventory tracking, sales analytics, and order management to enhance retail efficiency.

**Frontend Technologies :** Angular, Bootstrap, JavaScript, HTML5, CSS3.

**Backend Technologies :** .NET Core, C#, ASP.NET MVC, REST Web APIs

**Database :** SQL Server, PostgreSQL.

**Responsibilities :**

- Developed and maintained the backend using .NET Core and C to handle inventory and sales transactions.
- Implemented complex business logic for real-time inventory updates and sales reporting.
- Created dynamic and responsive front-end interfaces using Angular, Bootstrap, and JavaScript.
- Developed RESTful APIs for third-party integrations with point-of-sale systems.
- Designed and optimized database schemas for inventory and sales data.
- Conducted performance tuning and scalability enhancements..

## Project 2 : EduConnect - Online Learning Platform

### Role :Full Stack Developer (Dec 2023 to Jun 2024)

EduConnect is an online learning platform that connects students and teachers, offering a wide range of courses and interactive learning tools.

**Frontend Technologies :** Angular, Bootstrap, JavaScript, HTML5, CSS., jQuery.

**Backend Technologies :** C#, .NET Core, ASP.NET MVC, REST Web APIs.

**Database :** SQL Server, Azure SQL Database

### Responsibilities :

- Developed the platform's architecture using .NET Core and C#.
- Implemented interactive course modules and real-time communication features.
- Built RESTful APIs to handle user authentication, course management, and progress tracking.
- Designed responsive user interfaces with Angular, Bootstrap, and JavaScript.
- Managed cloud deployment and scaling using Microsoft Azure.
- Collaborated with the QA team to ensure the platform's stability and performance..

## Project 3 : PetPaws - Pet Supplies and Accessories Store.

### Role : Full stack Developer (Jul 2024 to Mar 2025 )

PetPaws is envisioned as a comprehensive e-commerce platform designed specifically for pet owners who seek convenient access to a diverse range of pet supplies and accessories. Developed using the .NET framework, this full-stack application integrates advanced functionalities to enhance the shopping experience, promote customer engagement, and facilitate efficient business operations for vendors.

**Frontend Technologies :** Angular, HTML5, CSS3, Bootstrap, JavaScript, jQuery etc.

**Backend Technologies :** Net core, C#, ASP.Net, MVC 5, REST Web APIs, ADO.NET. Entity Framework etc.

**Database :** SQL Server

### Responsibilities :

- Personalized profiles allow customers to manage their preferences, track order history, save favorite products, and receive personalized recommendations.
- Comprehensive categorization of products tailored to various pets including dogs, cats, birds, small animals, and aquatic pets.
- Dedicated dashboards empower vendors to manage their product listings, inventory levels, pricing, and promotional offers.
- Comprehensive administrative controls for managing users, roles, permissions, content moderation and site configuration.
