SUMMARY

Experienced .NET Developer specializing in enterprise solutions, API development, and ERP integrations. Proficient in crafting scalable web applications and automating business processes using .NET technologies. Expertise in ASP.NET Core MVC, Azure DevOps, and CI/CD pipelines. Skilled in designing and implementing robust APIs, working with diverse databases like MSSQL and SAP HANA, and delivering seamless ERP integrations with SAP Business One. Passionate about leveraging innovative technologies to enhance operational efficiency and business performance.

SKILLS

- ASP.NET Core, MVC
- Azure DevOps
- Solution Architect
- Python / Django
- MSSQL, MySQL, SAP HANA
- React.JS
- SQL Server Management
- IIS (Hosting & Deployment)
- ERP Consulting
- Web API Development
- Crystal Report
- Jira

EXPERIENCE

Software Engineer
Socius | Nov 2021-Current

- Mentored and trained a team of up to 20 people, resulting in improved performance and productivity.
- Implemented ERP software integration with e-commerce platforms, resulting in a 95% increase in process flow efficiency and streamlined operations.
- Developed REST APIs using the ASP.NET Core MVC, for building scalable and maintainable systems.
- Led the development of a middleware application that seamlessly integrates with SAP, enabling API connectivity and robust user administration controls. The front end of the application was built using React.js, while the backend was developed using ASP.NET MVC Core.
- Led and managed CI/CD projects using Jenkins and Azure, making testing, approval, and deployment processes smoother with pipelines, cutting down time and boosting project quality.
- Successfully developed a robust console ASP.NET Core application that seamlessly integrates SAP with Revolut Bank using Revolut Bank's Business API, enhancing financial transaction efficiency and streamlining enterprise banking processes

Techno Functional Consultant
FieldNXT | Jul 2020-Nov 2021

- Demonstrates comprehensive knowledge of SAP Business One ERP applications and their real-world implementation.
- Contributed significantly to the design, development, and testing phases of Crystal reports, SAP Add-ons, and query reports.
- Proficient in various database technologies including MSSQL, SAP HANA, MSSQL, and Database Management Systems.

EDUCATION AND TRAINING

Bachelor of Technology: Mechanical Engineering
SCT College of Engineering, | Jun 2018
