(Senior Software Engineer at Owebest Technology Pvt Ltd)

Career Objective

To be part of an organization that utilizes my skills and knowledge in its process of growth and challenges while giving me the opportunity to enrich my skills. Seeking the best opportunity in Mobile/Software Development fields.

Summary

- Over 4 years of experience as a **React-Native Developer**, delivering high-quality mobile applications for the IT and services industry.
- Strong analytical skills for data interpretation, enabling strategic decision-making and continuous app improvement.
- Collaborated with cross-functional teams (designers, backend, QA) to build scalable and maintainable mobile apps.
- Conducted detailed requirement analysis by engaging with clients and stakeholders to align app features with business needs.
- Performed thorough code reviews and applied performance tuning techniques to optimize app responsiveness and stability.
- Experienced in developing wireframes, prototypes, and UI designs to enhance user experience.
