- Awarded in Akhil Bhartiya Sanskriti Gyaan Pariksha, Kurukshetra Haryana.

## PROFESSIONAL SUMMARY

Total **7+ years** of experience working as **Oracle PL/SQL developer** in designing, develop, implement, test, and maintain databases. Extensive experience with modifying databases, solving issues, and ensuring standards are properly met. Managed other developers and oversaw the improvement of several applications. Devoted individual with the ability to successfully collaborate with coworkers to produce functional databases and smart solutions. Determined professional working to consistently meet and exceed standards.

## EXPERIENCE

**Database Developer, 11/2018 – 11/2023**

**Tata Consultancy Services - Mumbai, India**

**CLIENT -**

**ORACLE PL/SQL DEVELOPER, 01/2019 - 09/2023**

**ICICI PRUDENTIAL LIFE INSURANCE COMPANY - Mumbai, India**

- Designed & developed framework which monitors user Logins and their pending and successful transactions.
- Ensuring code quality by leading the code review process and mentors' other developers to help accelerate their learning and capabilities.
- Highly skilled in creating **Packages, Procedure, Function** and other similar objects with ability to make appropriate use of database concepts.
- Tuning of the SQL queries, which takes a long time to process the request using Explain **Plan, Hints** and use of required **Indexes** to reduce the response time.
- Experience in developing **Views, Materialized views and Ref-cursor**.
- Formed procedures and functions to monitor daily counts of parameters to ensure all data is accounted for in the application flow.
- Operated closely with clients to understand the requirements and discuss possible solutions.
- Provided weekly detailed project reports to keep manager informed on milestones and updates.

**Database Developer, 03/2024 – 10/2025**

**Capgemini - Pune, India**

**CLIENT -**

**ORACLE PL/SQL DEVELOPER, 05/2024 – 08/2025**

**S&P Global - New York, United States**

- Collaborated with cross-functional teams to understand business requirements and developed customized Oracle solutions for data integration and reporting.
- Optimized complex SQL queries, improving report generation time by 50% and significantly enhancing system performance during high-volume trading periods.
- Designed and implemented Splunk dashboards for real-time security event monitoring and alerting. Developed and optimized search queries in Splunk for efficient log analysis, reducing mean time to detect security threats by 30%.
- Managed Splunk indexes, data inputs, and forwarders to ensure optimal data ingestion and performance.

- Designed shell scripts for **ETL processes**, including data extraction, transformation, and loading across multiple systems using **Unix Shell Scripting**.

## EDUCATION

**B.E.** : Computer Science, 2018

**Oriental Institute of Science & Technology** - Bhopal, MP

GPA: 7.6

**XII**, 2013

**Jineshwar H.S. School, M.P. State Board** - Indore, MP

GPA: 77.40

**X**, 2011

**Sunflower H.S. School, M.P. State Board** - Harda, MP

GPA: 72.20

## ACHIEVEMENTS

· **Star Team Award** (Apr-2023):

Awarded as star team member award for creating workaround procedures for project.

· **Tatva Award** (Half yearly 2022):

Received Tatva Award for consistent and outstanding performance as PL/SQL developer.

· **Star Team Award** (Apr-2021):

Awarded as star team member award for developing monitoring mail system.

· **On the Spot Award** (Aug-2020):

For making required changes in package with utmost precision and without any manual error.

## CERTIFICATIONS

- Agile Project Management/Delivery/Teams (on Udemy).
- Oracle database SQL Certified (on Udemy).
- Splunk Beginner Course (on Udemy).
- Splunk search expert 101 (on Coursera).
