---

### **Professional Summary:**

- Having 6+ years of experience in delivering quality .NET web applications.
- Developing .NET Core Web API and web applications in ASP.NET MVC pattern.
- Working with client-side web applications using Angular framework.
- Worked in Agile team of .NET developers for fast paced software company.
- Implementing, designing, and debugging applications using C# and Oops concepts.

### **Technical Skills:**

Languages	C#, Typescript
Development Framework	ASP.NET MVC 5, .NET Core API, Angular 14
Database	MS SQL Server 2017
Other Language	HTML, CSS, jQuery
Version Control System	Azure DevOps

### **Work Experience:**

System Analyst, Hexaware	(Dec 2025 – Feb 2026)
Senior Software Engineer, NeoSOFT Pvt. Ltd.	(Sep 2023 – Nov 2025)
Technical Lead, HCL Tech	(Mar 2023 – Aug 2023)
Software Engineer, Chetu Inc.	(Aug 2021 – Mar 2023)
Software Engineer, Utilidex Software Pvt. Ltd.	(Oct 2020 – Jul 2021)
Software Developer, Sangtech Technologies	(Aug 2019 – Oct 2020)

### **Qualification:**

Maharaja Surajmal Institute of Technology	
B.Tech in Computer Science and Engineering	(2016)
Gandhi Memorial Govt. Sarvodaya Boys Senior Secondary School	
Senior Secondary Examination (CBSE)	(2012)
Gandhi Memorial Govt. Sarvodaya Boys Senior Secondary School	
Secondary Examination (CBSE)	(2010)

## **Projects:**

### **Vynamic 7.5**

**Technology Stack:** C#, Angular, XML Workflows, .NET 4.5, .NET Core Web API, SQL Server.

**Description:** Developed a plugin-based product integrating item addition in the cart and various functionality like loyalty redemption, gift card activation, e-voucher integration, ensuring functional and bug-free delivery on time.

#### **Role & Responsibility:**

- Developed plugin-based modules for cart operations, loyalty redemption, gift cards, and e-voucher workflows using C#, .NET, and XML. Built and enhanced REST APIs, optimized SQL queries, and collaborated with Angular UI teams for seamless integration. Performed unit testing, debugging, and ensured timely, high-quality delivery of product features.

### **Secure Payment**

**Technology Stack:** C#, ASP.NET Core Web API, EF Core with MS SQL Server 2019.

**Description:** Developed an application running on Ingenico device by making P3D build and importing into the device. We can read the card number by swiping the card and perform various operation like add balance from one card to another, check balance and show last transactions in POS.

#### **Role & Responsibility:**

- Developed payment features on Ingenico devices using P3D builds, enabling card reading, balance transfer, balance checks, and transaction history retrieval. Built and integrated secure ASP.NET Core Web APIs with EF Core and MS SQL Server for all payment operations.

### **Sweet Raise**

**Technology Stack:** C#, JWT, .NET Core Web API, EF Core, Angular, SQL Server.

**Description:** Created a dynamic fund raise application where user can participate or create their events to raise the targeted fund.

#### **Role & Responsibility:**

- Built and enhanced Angular UI components for dynamic event management and seamless user participation. Handled database design, testing, and integration to ensure smooth, scalable, and reliable application performance

## **Energy Hub**

**Technology Stack:** C#, ASP.NET MVC, LINQ, Entity Framework, Angular with MS SQL Server 2017.

**Description:** Web-based product for bill validations, invoices, rates and tariffs of different consumers from different suppliers for various commodities like Power, Gas, and Water.

### **Role & Responsibility:**

- Developed and maintained ASP.NET MVC modules for bill validation, invoice processing, and rate/tariff management using C#, LINQ, and Entity Framework. Built and enhanced Angular components for presenting consumer and supplier data across multiple commodities such as Power, Gas, and Water.

## **Smart India Services**

**Technology Stack:** C#, ASP.NET MVC, LINQ, Entity Framework with MS SQL Server 2014.

**Description:** Delivered a role-based login portal, where admin can assign various jobs to the vendors as per their location, also vendor can create, change or check the status of the running Job. It also keeps track of assigning vendors and the balance amount.

### **Role & Responsibility:**

- Developed role-based modules in ASP.NET MVC using C#, LINQ, and Entity Framework, enabling admins to assign jobs to vendors based on location. Implemented vendor workflows for job creation, updates, and status tracking, ensuring smooth and traceable job management.

## **Personal Details:**

Father's Name	Sohan Lal Sagar
Date of Birth	January 20, 1995
Marital Status	Unmarried
Passport	Yes
Address	East Delhi - 110032

## **DECLARATION**

I do hereby declare that that above information is true to the best of my knowledge.
