Scientific Editor with a strong foundation in medical and chemical sciences, helping authors present their work clearly and confidently. Skilled in peer-review coordination, publication management, and building meaningful connections that support smooth workflows and high-quality journal issues across digital and print formats.

EXPERIENCE

Blockdale Media LLP (The Indian Practitioner, Chemical Industry Digest) Andheri, Mumbai

Editorial Executive 2024 – Present

- Improved manuscript clarity, structure, and scientific accuracy for authors in medical and chemical fields.
- Managed the peer-review process, facilitating communication and ensuring timely decisions.
- Managed online/print publishing, including final proofreading and design coordination, to ensure timely, accurate issue delivery.
- Interviewed experts for fresh, relevant content on current healthcare/research developments.
- Attended scientific events and exhibitions to track emerging trends and boost the journal's industry presence.
- Cultivated positive relationships with authors, reviewers, and researchers; represented the journal at conferences for community engagement and insights.
