Functional Tester with 3 years of experience working on Oracle Utilities Customer Care and Billing (CCB) systems, involved in **System Testing (ST)**, **System Integration Testing (SIT)**, **User Acceptance Testing (UAT)**, and **Regression Testing** for implementation and upgrade projects. Familiar with Oracle delivery methodology, SDLC/STLC, and basic SQL queries for data validation. Have experience in defect tracking, UAT support, and coordinating with business users and technical teams during testing phases.

EXPERIENCE

Wipro – Oracle Utilities Associate Consultant (Functional / Tester)

Oct 2021 – Apr 2025 | 3.6 Years

- Worked extensively on utility billing areas like **customer lifecycle, service agreements, meter reads, billing, payments, credit & collections, field events and adjustments**.
- Worked on test case design and execution, defect lifecycle management, test documentation, and integration validation across CCB, C2M/MDM interfaces, and external systems.
- Performed **requirement analysis and functional walkthroughs with business stakeholders** and ensured alignment before development and testing phases.
- Executed **end-to-end functional, regression, and UAT testing**, ensuring high-quality releases across multiple project cycles.
- Logged, tracked, and managed defects using **Azure ADO, TFS, and Excel**, collaborating closely with development teams for timely resolution.
- Actively participated in **client calls and status discussions**, providing test progress updates and clarifying functional scenarios.
- Supported development activities by validating configurations and assisting in solution verification within Oracle Utilities.
