

With over **7 years of experience** as a **Full-Stack Developer**, I specialize in building scalable web services using **JavaScript, ReactJS, TypeScript, Next.js, Node.js, Python and Express**. I have deep expertise in designing and implementing REST APIs and microservice architectures to deliver high-performance applications.

Leadership

Proven leader in end-to-end project execution, team mentorship, and optimizing development workflows to drive efficiency, innovation, and scalable growth.

Skills

- JavaScript, OOPS, Typescripts
- Node.js, ExpressJS, NestJs
- React.js, NextJs, Python, Django
- Git, Bitbucket, Gitlab
- Jenkins (CI/CD) Pipeline
- Jest, Mocha, Nightwatch
- SQL: (MySQL, PostgreSQL), NoSQL: (MongoDB, Firebase)
- PM2, EC2, AWS, SES, S3, CloudWatch
- Jira, Trello, Linear, Slack
- Data Structure, Algorithms

Professional Summary

- I have strong experience with both **SQL and NoSQL** databases, including their structure and optimization. I specialize in backend development using **NodeJS, Python, Django, Express.js, NestJS and REST APIs**. I am well-versed in both client-side rendering (**CSR**) and server-side rendering (**SSR**) and have extensive experience working with metadata, including Open Graph (**OG**) properties.
- On the frontend, I have expertise in React.js, along with UI frameworks like React-Bootstrap and MUI. I have worked across various phases of the Software Development Life Cycle (**SDLC**), including requirement **analysis, design, coding, testing, CI/CD** pipelines using Jenkins, and deployments following **Agile** methodologies.
- For better coding practices, I have experience in writing test cases using various frameworks such as **Jest, Mocha, and Nightwatch**. Additionally, I have worked on diverse applications, including eCommerce, CRM, ERP, billing systems, doctor management systems, and inventory management systems with POS integration. I've implemented **Google, Meta ads campaign** and analytical tools for performance and review.

Education Summary

Science Education - Associate of Science

2014

- Completed 12th standard at Saradar Patel Educational Institute, Bhavnagar, Gujarat, under the GSEB Board (2012-2014) with a **96.69%** percentile.

Computer Engineering

2018

- Completed Bachelors of Engineering from Gujarat Technological University, Gujarat (2014-2018) with an **8.2 CGPI** under the **TFWS** (Tuition Fee Waiver Scheme) seat.

Affiliations

Developed the Estate-based Planning and Will and Advanced Will Creation from the Creative and lucrative User flow with Complex calculation based on the User Asset and Personal Information working with CTO, CEO, and Tech Lead.

Work History Summary

Matlab Infotech - Surat

June 2018 – Apr 2022

- Full Stack Developer || ReactJs || NodeJs || Python

Project Name	Very Best Baking
Role	Jr. Software Developer
Technologies	ReactJS, TypeScripts, NodeJS, ExpressJs, MongoDB, SES, OTP Service, Google Analytics, Google Ads Campaign Integration, Jest (testing framework)
Tools:	GIT, Trello
Responsibilities:	Created REST API for eCommerce website using NodeJs and ExpressJS. Added SES of AWS. Create UI using bootstrap.
Timeline:	Jun 2018 – Feb 2019

Project Name	Chargezone CRM
Role	Jr. Software Developer
Technologies	ReactJS, Redux, React-Bootstrap, Redux-Saga, NodeJS, ExpressJs, MongoDB, Twillio, GoogleMap, Redis, Mocha (testing framework), Meta Analytics, Meta Ads Campaign Integration
Tools:	GIT, Jira, Jenkins (CI/CD)
Responsibilities:	Created Rest APIs for CRM using redis. Create UI using react-bootstrap and for state management used redux and data structure. Also follow to agile methodology in development and guide junior developer for flow and complex logic.
Timeline:	March 2019 - April 2020

Project Name	Zib Messanger
Role	Sr. Software Developer
Technologies	ReactJS, Redux, React-Bootstrap, Redux-Saga, Python, Django, SQL, Twillio, GoogleMap, Redis, Mocha (testing framework)
Tools:	GIT, Jira, Jenkins (CI/CD)
Responsibilities:	Created Rest APIs for CRM using redis. Create UI using react-bootstrap and for state management used redux and data structure. Also follow to agile methodology in development and guide junior developer for flow and complex logic.
Timeline:	May 2020 - April 2022

Careator Technology – BangaloreJun-2022 – March 24

- Sr. Lead Software Developer || Full Stack Developer || ReactJs || NodeJs

Project Name	Nike CRM
Role	Sr. Lead Software Developer
Technologies	ReactJS, Redux, MUI, NodeJS, Lambda Function, SQL, AWS (EC2, SES, SQS), Jest and NightWatch (Testing Framework)
Tools:	Jira, Git, Jenkins (CI/CD)
Responsibilities:	Create new design with ReactJs MUI and optimization related task from frontend and backend side. Sprint planning and also guide junior developer with task and logical things.
Timeline:	Jun 2022 – March 2024

Full Stack Developer – IndiaMay-2024 – till now

- Sr. Software Developer || Full Stack Developer || ReactJs || NodeJs || Python

Project Name	Cloudairy
Role	Sr. Software Developer
Technologies	ReactJS, Redux, React-Bootstrap, NodeJS, ExpressJs, SQL, NextJs, AWS (EC2, SES, SQS), Jest(Testing Framework), Python.
Tools:	Bitbucket, Trello, Jenkins (CI/CD)
Responsibilities:	Requirement understanding of client and work based on client requirements. Handle a client with directly and worked on agile methodology. Also, created custom Analytical tools using python lambada functions.
Timeline:	May 2024 – Nov 2024

Project Name	Clapboard Studio
Role	Sr. Software Developer
Technologies	ReactJS, Redux, React-Bootstrap, NodeJS, ExpressJs, MongoDB, NextJs, AWS (EC2, SES, SQS)
Tools:	Bitbucket, Trello
Responsibilities:	Create a project with NextJS and make all video page with proper SEO details with OG properties.
Timeline:	Dec 2024 – till now
