Pani Kumar

Co-founder at TestVagrant Technologies & UltraLesson.ai
Bengaluru, Karnataka, India

Summary

Over 15 years of software development experience including programming, testing, automation and management.
Currently responsible for providing strategic & technical solutions to realise the business value early and often.

At TestVagrant our goal is to make "testing intelligent" with diverse tech skills & techniques - and yet keep it simple.

Specialities:
Cloud computing, Micro-services, containers and container orchestration
Test infrastructure and environment
Platform Re-Engineering, Continuous Delivery, Coaching & Consulting
Automation techniques for Mobile, Backend/API and Web technologies
Test Strategy, planning and execution for large scale projects
