Profile Summary

7 years of experience as a Physical and Electronics Security Specialist at Tata Communications Ltd, I bring expertise in assignment management encompassing physical and electronics security, security guard supervision, vendor coordination, and employee escort support. I have a proven track record in managing CAPEX and OPEX budgets for safety and security equipment procurement, overseeing AMC vendors, and leading projects for the implementation of new safety measures. Additionally, I excel in providing basic life support, induction, and security training to employees, fostering awareness of emergency protocols. My proficiency extends to reviewing and implementing physical and electronics security policies, incident and risk management, and conducting ISO 27001 and ISO 45001 audits with successful closure of audit points. Furthermore, I possess comprehensive knowledge in access control systems, CCTV systems, fire alarm systems handling
