TECHNICAL STACK

Technical Skills - Dashboarding, Data Visualization, Router configuration, Cctv configuration with NVR/Dvr

Languages & Tools- Python, MS Excel, UiPath, Power Automate, Bitbucket

WORK EXPERIENCE

Cognizant Technology Solutions   *Bengaluru, Karnataka*

Programmer Analyst   *Feb. 2022 - Dec 2023*

- Worked on OCR CRN implementation process using UiPath until production entry.
- Supported various projects using Power automate.
- Adept at visualizing insights and results using Power BI, with a focus on practical business applications.

R-Logic Technology   Bengaluru, Karnataka

Technical Support   Oct.2024 - Dec 2024

Technical support for hardware and software involves troubleshooting, diagnosing, and resolving issues related to physical devices and software applications.

Velan IT Solution private Limited   Bengaluru, Karnataka

Project a**nd Technical support Engineer**   Jan 2026 -

Knowledge of magnetic sensor CCTV technologies and networking basics of remote viewing setup and client coordination.

PROJECTS

Cognizant Technology Solutions   *Bengaluru, Karnataka*

UIPATH Project - OCR CRN Implementation | *UiPath*

- Achieved a **success rate of 93.3%** in the implementation.
- Prepared **SDD and PDD documents** prior to development.
- Developed the login page and implemented the credential asset.
- Pushed code to **Bitbucket**, taking it through to production.

Vendor Coordinator

Coordinating with customers to understand their security requirements and providing suitable CCTV solutions (IP cameras, DVR/NVR, cabling, networking).

Coordinating with technicians for installation, configuration, and troubleshooting.

Ensuring compliance with safety and security standards during installation.

Personal Projects

Power automate Project | *Power Automate*

- Use Case: PowerApps Coffee Filter.
- Desktop Employee Onboarding Process.

Using AI/Python

Optimus TTY: LLM powered terminal enabling seamless interaction through natural language commands. github.com

- **FixMate AI: Python library that leverages LLMs to automatically detect and fix code vulnerability in repository.github.com**
- **LetsCode: A online coding app to code via browsers and supports multiple language.**

EDUCATION

Bachelor of Engineering, AIT, CHICKAMAGALUR   2017 - 2021

Information Science and Engineering

GPA : 7.26
