With 6 years of experience as a Project Engineer at Convergent, I bring a strong foundation in team management and expertise in Access control & CCTV systems. My experience includes site coordination, supervising teams, coordinating with vendors, and ensuring effective collaboration among stakeholders to maintain a safe and secure environment.

I have successfully completed multiple projects like Apple India, Micron, CBRE, Omnicom etc. various locations of Hyderabad. My supervision and project planning led to the delivery of projects within the scheduled timeline with customer satisfaction.

I am handling from the initial survey to the project handover including various coordination in site level, design support, BOQ finalization, site coordination etc.

My technical expertise spans access control systems, CCTV systems, intrusion systems, intercom systems ensuring smooth operation and reliability. My ability to lead teams and drive initiatives contributes to a secure and efficient workplace while maintaining compliance with organizational and regulatory standards

Projects done-- Apple, Google, Dell, CBRE, Intel, Omnicom, Converge one, CBRE, Amazon, Micron Technologies .
