Chennai, India

15/07/1999

## SKILLS

Ajax • Axios/Fetch • Bootstrap • CSS • GitHub • JSON • HTML • JavaScript • jQuery • JSON • Laravel • Node JS • Express JS • MongoDB • MySQL • Material UI • PHP • React JS • REST • SCSS • Tailwind CSS • TypeScript • Angular JS

## PROJECTS

### Sitespedia (<https://sitespedia.com>)

Task Management Platform

- Developed a task management platform that helps users stay organized with intelligent checklists, reminders, and productivity-focused features
- Visualized tasks and deadlines in a clean, intuitive calendar layout
- Designed custom pages using block-based content, enabling users to add notes, tasks, and other elements within flexible sections.

### Popupsify (<https://popupsify.com>)

Popup Builder Platform

- Built a popupsify style popup system for creating and managing interactive marketing components to boost user engagement and conversions.
- Pre-built templates for common use cases (e.g., lead generation, discounts, exit-intent offers)
- Display rules (e.g., time delays, exit intent, specific pages)
- Audience segmentation (e.g., new vs. returning visitors)
- Track conversions, impressions, and click-through rates

### Timeline (<https://timeline.page>)

Timeline application allowing for chronological event display

- Built a timeline app where users can add detailed events, displayed in the order they occurred.
- Timelines can be shared via direct links or embedded into other websites, facilitating collaboration and presentation
- The application is optimized for various devices, ensuring a seamless experience on desktops, tablets, and smartphones

# KAMARAJ ELANGOVAN

## FULL STACK DEVELOPER

## SUMMARY

Results-driven Full Stack Developer with 2+ years of hands-on experience using JavaScript, React JS, Angular JS, PHP, Laravel, Node JS, Express JS, MySQL and MongoDB to engineer scalable, high-performing web applications. Demonstrated expertise in designing interactive user interfaces and integrating RESTful APIs across diverse projects, including custom popup engagement systems and task management tools. Recognized for delivering robust solutions that drive user satisfaction and business value.

## EXPERIENCE

### Netaxis IT Solutions (P) Ltd

Chennai, India

Junior Full Stack Developer

06/2023 - 05/2025

A modern IT solutions provider focused on delivering innovative and user-centric applications

- Developed and maintained robust web applications using Node Js with Express and PHP with the Laravel framework, ensuring that our codebases were scalable and easy to maintain, which contributed to increased project efficiency
- Designed and implemented interactive frontends with JavaScript, jQuery, React JS and AngularJS, which enhanced the overall user experience and made our applications more engaging for users
- Integrated RESTful APIs built in Node JS and Express with React JS and another Laravel and PHP with AngularJS, enabling fast and secure data handling, which improved the responsiveness of our applications and user satisfaction
- Designed and developed modular, embeddable widgets and interactive components, allowing them to be shared via direct links or embedded as frames on third-party websites, which expanded our reach and usability
- Managed and optimized Mongo DB and MySQL database architecture to ensure performance, scalability, and reliably support the growing demands of our applications.

### Netaxis IT Solutions (P) Ltd

Chennai, India

Full Stack Developer Trainee

02/2023 - 06/2023

A modern IT solutions provider focused on delivering innovative and user-centric applications

- Learned to design responsive user interfaces using HTML, CSS, and frontend libraries like jQuery and AngularJS
- Gained hands-on experience with PHP, Laravel, JavaScript, and MySQL through real-world projects and coding exercises

## EDUCATION

### Nehru Memorial College

Trichy, India

Bachelor of Computer Applications

07/2017 - 05/2020

### GUVI Geek Network

Chennai, India

Full Stack Development (MERN)

01/2021 - 12/2021
