### ABOUT ME

Results-driven Software Developer with over 3+ years of experience in designing and implementing end-to-end solutions using Odoo, Frappe, and Django frameworks. Skilled in managing multiple projects simultaneously, with a strong focus on developing robust, scalable, and user-centric applications. Adept at ensuring high performance, maintainability, and seamless functionality across diverse business environments.

### SKILLS

- Linux
- Python
- Frappe
- Java script
- nginx
- AWS
- SQL
- Superset
- Odoo
- OOPS
- HTML & CSS
- Jquery
- Docker

### PROFESSIONAL EXPERIENCE

#### **EWall Solutions Pvt Ltd – Jan 2022 to Jun 2025**

##### **Software Developer**

- Designed and developed a **customer care management system** using **Frappe, AWS Connect, and Boto3**, enabling seamless call handling and smart ticket routing.
- Integrated **AWS Connect** with **GDPR**-compliant data management, improving routing profile efficiency and operational performance.
- Built a universal payment integration plugin in **Odoo**, supporting multiple gateways including **Apple Pay, Google Pay, PhonePe, KNET, CyberSource, and MPGS**.
- Developed a **LinkedIn-style** recruitment platform (**"365 Jobs"**) on **Odoo**, allowing recruiters and candidates to interact via **job postings**, applications, and **lead** generation features.
- Implemented back-end workflows for data handling and automated routing in **candidate-job matching** logic.
- Delivered a **Frappe-based** web application for **BKL** with a dynamic tree structure for machine-level norms and **drag-and-drop UI functionality**.
- Built a **Chrome Extension** integrated with **Frappe** to simplify **contact management** and website data entry, with full **CRUD** functionality.
- Worked on **full-stack** development across **Odoo** and **Frappe frameworks**, including back-end logic, front-end customization, and **REST API** integrations.
- Ensured clean and maintainable code with consistent performance optimization and modular design.
- Contributed to internal tools and **enhancements that improved developer productivity and deployment pipelines**.
- Mentored and **trained junior developers on Odoo/Frappe frameworks**, coding standards, and deployment best practices.

## PROJECTS

---

- **EWall Connect** – Developed a customer care platform using Frappe, AWS Connect, and Boto3, featuring integrated call handling, smart ticketing, and GDPR-compliant data routing.
- **Knpay** – Built an Odoo payment plugin supporting multi-gateway payments including Apple Pay, Google Pay, PhonePe, KNET, CyberSource, and MPGS.
- **365 Jobs** – Created a recruitment portal using Odoo with job listings, applications, and lead management tailored for recruiters and job seekers.
- **BKL** – Delivered a web solution in Frappe with a drag-and-drop tree view for managing unlimited-level machine norms.
- **Quick Contact (Chrome Extension)** – Built a Frappe-integrated Chrome Extension for contact management with custom field mapping and form auto-fill.
- **OFM (Order Fulfillment Management)** – Developed a backend management system that integrates with Magento 2 to retrieve order details and manage the full fulfillment lifecycle including warehouse handling and dispatch tracking.
- **ZDrive** – Built a document management platform similar to Shutterstock, enabling users to upload, organize, and manage digital assets with advanced search, preview, and download capabilities. Designed for high usability and scalable file handling.

## EDUCATION

---

<b>2021 - 2021</b> Fita Academy	<b>Computer Science (Python/Django)</b> Completed hands-on training in Python, Django, REST APIs, and full-stack web development.
<b>2018 - 2021</b> SRM University	<b>Bachelor of Business Administration</b> Studied core business concepts with exposure to enterprise systems and digital tools.

## LANGUAGE

---

- English (Fluent)
- Tamil (Fluent)
