

SANI KUSHWAHA

Address: Noida Sector-63.201301

E-Mail: sunnypr24@gmail.com

Contact No: +91- 8738098091

Objective

To leverage my expertise as a seasoned **Full Stack Developer** with over **5+ years** of experience in designing and developing scalable web and windows-based applications utilizing .NET technologies. Proficient in all aspects of the Software Development Life Cycle (SDLC), including:

Requirement Gathering:- Collaborating with stakeholders to identify project requirements.

Analysis:- Conducting thorough analysis to define project scope and objectives.

Development:- Building high-quality applications using .NET technologies.

Testing:- Ensuring application quality through rigorous testing and debugging.

Implementation:- Deploying applications using AGILE methodologies.

Skills

C#, .Net Core MVC, Asp.net MVC, Web API, Asp.net Webforms, LINQ, ADO.Net, Entity Framework, SQL Server, Design Pattern, JavaScript, Jquery, Microservices, Azure, Solid Principle, Jira

Work Experience

Full Stack Developer

Ascendion Engineering Solutions - Nov 2024 - Present

Key Responsibilities:

- **Full-Stack Development:** Involved in analysis, designing, coding, and implementation of applications, including dynamic web page development using client-side scripting languages and technologies
- **Agile Methodologies:** Assisted in agile software development management activities, responding to unpredictability through iterative sprints
- **MVC Architecture Migration:** Designed and developed web applications, migrating projects into MVC architecture using ASP .Net Core to separate internal representations of information
- **GUI Development:** Involved in the development of presentation logic for GUI of ASP.Net pages
- **Client and Team Coordination:** Coordinated with clients and offshore teams to meet project objectives
- **Micro Services:** Designed, developed, and deployed scalable and loosely coupled micro services architecture using technologies such as ASP.NET Core. Created RESTful APIs to handle business logic, data processing, and communication between distributed services.
- **Redis Cache:** Implemented Redis Cache to improve application performance and reduce database load for frequently accessed data and API responses. Used Redis for distributed caching, session management, and rate limiting, enhancing service responsiveness and reliability.

Full Stack Developer cum TL

Chetu India Pvt Ltd - Aug 2022 – Nov 2024

Key Responsibilities:

- **Full-Stack Development:** Involved in analysis, designing, coding, and implementation of applications, including dynamic web page development using client-side scripting languages and technologies
- **Agile Methodologies:** Assisted in agile software development management activities, responding to unpredictability through iterative sprints
- **MVC Architecture Migration:** Designed and developed web applications, migrating projects into MVC architecture using ASP .Net Core to separate internal representations of information
- **GUI Development:** Involved in the development of presentation logic for GUI of ASP.Net pages
- **Client and Team Coordination:** Coordinated with clients and offshore teams to meet project objectives

Dot Net Developer cum STM

Incroable Industries Pvt Ltd - Mar 2017 - Sep 2019

Key Responsibilities:

- **Full-Stack Development:** Involved in analysis, designing, coding, and implementation of applications, including dynamic web page development using client-side scripting languages and technologies.
- **Agile Methodologies:** Assisted in agile software development management activities, responding to unpredictability through iterative sprints.
- **GUI Development:** Involved in the development of presentation logic for GUI of ASP.Net pages.
- **Client and Team Coordination:** Coordinated with clients and offshore teams to meet project objectives.

Academic Qualifications

- **Bachelor of Technology** from SR Institute of technology Lucknow affiliated to A.K.T.U University- 2022, Uttar Pradesh, India scored 67%.
- **Polytechnic Diploma in IT** from Govt. Polytechnic Kanpur affiliated to board of technical education U.P- 2016, Uttar Pradesh, India scored 66%.

PROFESSIONAL EXPERIENCE: (Current Projects)

1. Project Title: Hospital Management System (Malaysia, Vietnam).

Project Objective: To develop a scalable, multilingual, and role-based Hospital Management System (HMS) that streamlines operations for hospitals in Malaysia and Vietnam. The platform aims to digitize patient management, appointment scheduling, medical records, pharmacy, billing, and reporting while ensuring compliance with regional healthcare regulations and multi-timezone support.

Key Features

- Multi-Hospital Support: Manage multiple hospitals and branches under one unified system.
- Patient Registration & EMR: Digital patient records with history, vitals, diagnosis, and treatment tracking.
- Appointment Management: Real-time doctor availability, scheduling, and calendar integrations.
- Doctor & Staff Portal: Role-based dashboards for doctors, nurses, lab technicians, and admins.
- Pharmacy & Inventory Module: Medicine stock, purchase, expiry alerts, and prescription integration.
- Billing & Insurance Module: Automatic billing, insurance claims, GST/VAT compliance, and currency localization.
- Laboratory Module: Test orders, report uploads, and lab technician workflows.
- Multi-language & Multi-timezone Support: Designed to support English, Malay, Vietnamese, and time zone localization.
- Alerts & Notifications: Email/SMS alerts for appointments, reports, billing due, etc.
- Analytics & Reports: Customizable dashboards for admin, finance, and patient statistics.
- Data Security & Privacy: Role-based access control, data encryption, and audit logs.

Technology: Asp.Net Core, Angular, MS SQL Server, jQuery, Azure, Redis, REST APIs, Docker

Team size: 70 Members

Responsibilities:

- Developed secure and scalable RESTful APIs using ASP.NET Core, implementing clean architecture and layered design.
- Designed and optimized relational database schemas in SQL Server, with stored procedures and triggers for critical operations.
- Implemented Redis Cache for improving data retrieval times, session handling, and reducing DB load.
- Integrated JWT-based authentication and role-based access control (RBAC) to secure endpoints.
- Developed background jobs for notifications and report generation.
- Used Docker to containerize services for consistent development and deployment across environments.
- Deployed applications on Azure, using CI/CD pipelines for automated testing and deployment.
- Managed source control, code reviews, and branching using Git & GitHub.
- Conducted unit and integration testing using xUnit/NUnit.
- Interacted with Malaysian and Vietnamese hospital stakeholders to gather requirements and customize features.
- Coordinated with QA and UX teams for UAT, enhancements, and localization testing.
- Actively participated in Agile/Scrum ceremonies: sprint planning, standups, demos, and retrospectives.

Strength

- Self-motivated with positive attitude.
- Result oriented, strong will power and better Planning and Coordination.
- Easily adaptable nature.
- Adaptability and Flexibility.

Hobbies

- Learning new things
- Net Surfing
- Coding Challenges

Demographic Details

Date of Birth : Dec 19, 1995
Gender : Male
Marital Status : Unmarried
Languages Known : English, Hindi

Permanent Address : Village- Hajipur, Post- Bharoo, Dist- Kanpur Nagar 209214

Declaration

I hereby declare that the above written particulars are true to the best of my knowledge and belief.

Date:
